**Phone:** 001-323-928-7282x8552

**Location:** South Jessica

**Hourly Rate:** \$152/hr

**Total Experience:** 5 years

---

## Education

---

**PhD in Artificial Intelligence**

Georgia Institute of Technology

**Ranking:** #15

**GPA:** 3.49

---

## Summary

---

Experienced programmer with 5 years in software development specializing in building scalable applications. Proficient in strategic planning, agile methodology, problem solving, team leadership, and Scrum.

---

## Skills

---

- **Next.js:** Advanced (5 years)
- **MongoDB:** Advanced (4 years)
- **Data Science:** Advanced (4 years)
- **Spring Boot:** Intermediate (2 years)
- **Vue.js:** Intermediate (2 years)
- **TypeScript:** Intermediate (2 years)
- **AWS:** Intermediate (2 years)

- **Redis:** Beginner (1 year)
  - **Git:** Beginner (1 year)
- 

## Soft Skills

---

- Strategic Planning
  - Agile Methodology
  - Problem Solving
  - Team Leadership
  - Scrum
- 

## Languages

---

- **English:** C1
- 

## Certifications

---

- **Docker Certified Associate**  
Score: 727  
Expiration: 2028-06-05
  - **Certified Kubernetes Administrator**  
Score: 828  
Expiration: 2027-12-21
- 

## Experience

---

### Software Engineer

**Company:** Tech Innovations Inc.

**Industry:** FinTech

**Size:** Startup

**Duration:** 2 years

- Developed a **Mobile App** that improved user engagement by 30% through real-time notifications and user-friendly interfaces.
- Collaborated with cross-functional teams to design and implement an **API Gateway** that streamlined service interactions and reduced latency by 25%.
- Led the integration of **MongoDB** for database management, enhancing data retrieval speed and reliability.

## Full Stack Developer

**Company:** Cloud Solutions Ltd.

**Industry:** Enterprise Software

**Size:** Enterprise

**Duration:** 3 years

- Spearheaded the development of a **Real-time Chat System** using **Next.js** and **TypeScript**, enabling seamless communication for over 10,000 users concurrently.
- Designed and implemented scalable backend services using **Spring Boot**, resulting in a 40% increase in application performance.
- Employed **AWS** for cloud deployment, ensuring high availability and disaster recovery strategies.
