Location: Zimmermanburgh

Summary

Dynamic and detail-oriented software developer with over 5 years of experience in crafting robust applications and optimizing system performance. Proven track record in designing and implementing scalable solutions across various industries, including finance and healthcare. Adept at leading cross-functional teams in Agile environments and passionate about leveraging technology to solve complex problems.

Experience

Senior Software Engineer

Tech Innovations Inc., Zimmermanburgh

March 2021 - Present

- Led a team of 5 developers in the creation of a **Payment Processing System** that reduced transaction time by 30% and improved security protocols, resulting in a 20% decrease in fraud cases.
- Architected microservices for the system, enhancing modularity and allowing for seamless integration with third-party services.
- Collaborated with DevOps teams to implement CI/CD pipelines using Kubernetes, achieving a deployment frequency of 10 times per week.

Software Developer

Creative Solutions Ltd., Zimmermanburgh

June 2018 - February 2021

- Developed a **Data Analytics Dashboard** using React and TypeScript, which

enabled clients to visualize key metrics and improved data-driven decision-making processes by 40%. - Worked alongside data scientists to build a **Machine Learning Pipeline** that automated data preprocessing and model training, reducing project timelines by 25%. - Participated in code reviews and mentoring sessions to foster best practices in software development.

Junior Developer

NextGen Technologies, Zimmermanburgh

January 2017 - May 2018

- Contributed to a **Mobile App** development project that reached over 10,000 downloads within the first month of launch. - Assisted in database management using MySQL and MongoDB, optimizing queries to improve application performance by 15%. - Gained hands-on experience with Django to build RESTful APIs for communication between the mobile app and backend services.

Skills

- **Java**: Expert
 - **TypeScript**: Expert
 - **React**: Advanced
 - **Kubernetes**: Advanced
 - **MySQL**: Advanced
 - **Microservices**: Intermediate
 - **Rust**: Intermediate
 - **DevOps**: Intermediate
 - **MongoDB**: Intermediate
 - **Django**: Beginner
-

Projects

- **Payment Processing System**

Developed a secure payment processing system that handled over \$2 million in transactions monthly, integrating with multiple payment gateways.

- **Data Analytics Dashboard**

Created a user-friendly dashboard that provided real-time insights, leading to a 40% increase in client engagement and satisfaction.

- **Machine Learning Pipeline**

Designed and implemented an automated pipeline that processed large datasets and trained predictive models, improving accuracy by 15%.

- **Mobile App**

Collaborated in the design and launch of a mobile application that received positive user feedback and high engagement rates, with features including push notifications and real-time updates.

Education

Bachelor of Science in Computer Science

University of Zimmermanburgh, Zimmermanburgh

Graduated: May 2016

- Graduated with honors, GPA: 3.8/4.0

- Relevant coursework: Data Structures, Web Development, Software Engineering, Database Management

Certifications

- **Certified Kubernetes Administrator (CKA)**
 - **Oracle Certified Professional, Java SE 11 Developer**
 - **AWS Certified Solutions Architect – Associate**
