Summary

Passionate and results-driven software developer with over 5 years of experience in delivering robust software solutions. Proficient in a wide range of programming languages and frameworks, with a strong focus on microservices architecture and cloud technologies. Adept at collaborating with cross-functional teams to drive projects from inception to completion. Committed to continuous learning and adapting to new technologies.

Experience

Senior Software Engineer

Tech Innovations Ltd. – North Margaretburgh

January 2021 – Present

- Spearheaded the development of a **Real-time Chat System** using **Vue.js** and **FastAPI**, which improved user engagement by 30%.
- Designed and implemented a **Payment Processing System** that streamlined transaction processes, reducing processing time by 40%.
- Led a team of developers in the creation of a scalable **E-commerce Platform**, resulting in a 25% increase in sales during the first quarter post-launch.

Software Engineer

Creative Solutions Inc. – North Margaretburgh

June 2018 – December 2020

- Developed a feature-rich **Mobile App** for a retail client using **Java** and **Flask**, enhancing customer interaction and achieving a 4.8-star rating on app stores.
 - Collaborated on the delivery of a comprehensive **Web Application**, utilizing microservices architecture, which improved system reliability and maintainability.
 - Contributed to backend services using **Python** and **C++**, optimizing performance and reducing resource consumption by 15%.
-

Skills

- **Vue.js**: Advanced
 - **Java**: Advanced
 - **Microservices**: Advanced
 - **Python**: Advanced
 - **FastAPI**: Advanced
 - **Flask**: Intermediate
 - **C++**: Intermediate
-

Projects

- **Real-time Chat System**: Developed a scalable chat application that supports thousands of concurrent users, utilizing Vue.js for the frontend and FastAPI for backend services.
- **Mobile App**: Created a user-friendly mobile application for e-commerce with Java, featuring secure payment integration and real-time inventory updates.
- **Payment Processing System**: Engineered a robust payment gateway that handled over \$1 million in transactions within the first three months of deployment.
- **E-commerce Platform**: Led the project to build an online marketplace, achieving a 40% increase in customer acquisition and retention rates.

- **Web Application:** Designed a dynamic web application leveraging microservices architecture, which enhanced deployment speed and reduced downtime.
-

Education

Bachelor of Science in Computer Science

North Margaretburgh University – North Margaretburgh

Graduated: May 2018

Certifications

- **Google Cloud Professional**

Acquired: August 2021

Focused on cloud architecture and the deployment of scalable applications on Google Cloud Platform.

Additional Information

- Actively contribute to open-source software projects and participate in local coding meetups to stay current on industry trends.
- Enthusiastic about mentoring junior developers and fostering a culture of knowledge sharing within teams.
