Score: 795, Exp: 2028-08-06
-

Summary

Dedicated programmer with **13 years** of experience in software development, specializing in strategic planning and problem solving. Proven ability to communicate effectively across different teams, coupled with strong public speaking skills.

Experience

Senior Software Engineer

Company: Tech Innovations (FinTech)

Size: Enterprise

Duration: 2018 - Present

- Led the development of a **Microservices Architecture** for a scalable payment processing system, improving transaction speeds by 35%.
- Designed and implemented a **Real-time Chat System** to enhance customer support interactions, increasing user satisfaction ratings by 40%.
- Collaborated with cross-functional teams to deliver a complex web application, ensuring alignment with business objectives and technical requirements.

Software Developer

Company: Creative Solutions (Startup)

Size: Startup

Duration: 2015 - 2018

- Developed a mobile app that supports a **Payment Processing System**, facilitating secure transactions for users, resulting in a 50% increase in user engagement.
- Utilized **MongoDB** for data management, leading to optimized data retrieval times and a more efficient backend system.
- Implemented **Kubernetes** for container orchestration, which streamlined deployment processes and enhanced application stability.

Junior Developer

Company: Global Tech (Enterprise)

Size: Enterprise

Duration: 2010 - 2015

- Assisted in the development of multiple web applications using **Node.js**, contributing to a more robust and scalable infrastructure.
 - Participated in Agile methodologies, enhancing project delivery timelines and team collaboration.
 - Gained hands-on experience with **Terraform** for infrastructure as code, enabling automated infrastructure management.
-
