---

## Summary

Dynamic and detail-oriented programmer with over 5 years of experience in software development and a strong focus on web applications and DevOps methodologies. Proficient in developing scalable applications using Django and implementing robust machine learning algorithms. Proven track record of delivering projects on time and achieving significant performance improvements. Passionate about leveraging technology to solve complex problems and enhance user experiences.

---

## Experience

### Senior Software Engineer

**Tech Innovations Inc., Morenoport**

*March 2020 - Present*

- Led a team of 5 developers to design and implement an **E-commerce platform** that increased customer engagement by 30% and boosted sales by 25% within the first six months post-launch.
- Developed RESTful APIs using **Django** to support mobile and web applications, enhancing the content delivery speed by 40%.
- Collaborated with cross-functional teams to adopt **DevOps** practices, resulting in a 50% reduction in deployment time.

## Software Developer

### NextGen Solutions, Morenoport

*June 2017 - February 2020*

- Contributed to the development of a comprehensive **Web Application** for local businesses, which improved client operations and user engagement significantly.
  - Implemented machine learning algorithms to analyze user data, leading to personalized recommendations which increased user retention by 20%.
  - Assisted in the migration of applications to **AWS**, optimizing costs and improving application availability.
- 

## Skills

- **C++**: Intermediate
  - **Django**: Expert
  - **DevOps**: Advanced
  - **TypeScript**: Beginner
  - **React**: Intermediate
  - **Machine Learning**: Advanced
  - **Git**: Beginner
  - **AWS**: Intermediate
- 

## Projects

### E-commerce Platform

- Developed a fully functional e-commerce platform using **Django**, integrating payment gateways and user authentication features.
- Collaborated with UI/UX designers to create a seamless shopping experience, resulting in a 25% increase in customer satisfaction as measured by feedback scores.

## Web Application

- Created a robust web application for local businesses, resulting in a streamlined online presence and a 40% increase in client inquiries.
  - Utilized **React** for front-end development, enhancing user interaction and responsiveness.
- 

## Certifications

- **Scrum Master Certification**  
Issued by Scrum Alliance, 2021
  - **Microsoft Azure Developer**  
Issued by Microsoft, 2022
- 

## Education

### Bachelor of Science in Computer Science

#### Morenoport University

*Graduated: 2017*

- Focused on software development and data structures.
  - Member of the university coding club, participating in hackathons and tech workshops.
- 

## Additional Information

- Actively contribute to open-source projects on GitHub, focusing on improving documentation and resolving issues.
- Enthusiastic about continuous learning, currently exploring **TypeScript** and advanced machine learning techniques.
