**Location:** Millerburgh

---

## Summary

Detail-oriented and innovative programmer with over 5 years of experience in developing robust applications and systems. Proficient in Django and Vue.js, with a strong foundation in Java and cloud technologies. Successfully led projects that improved efficiency and user engagement. Passionate about leveraging technology to solve real-world problems.

---

## Experience

### Software Developer

**Tech Innovations Inc.** - Millerburgh, NY

*June 2020 - Present*

- Developed a **Real-time Chat System** using Django and Vue.js, resulting in a 40% increase in user engagement and satisfaction.
- Collaborated with cross-functional teams to design and implement scalable microservices using Kubernetes, improving deployment times by 30%.
- Assisted in migrating legacy systems to AWS, enhancing system reliability and reducing operational costs by 20%.

## Junior Software Developer

**NextGen Solutions** - Millerburgh, NY

*January 2018 - May 2020*

- Contributed to the development of a **Payment Processing System**, implementing features that ensured secure transactions and compliance with industry standards.
  - Wrote clean, maintainable code in Java and collaborated with senior developers to troubleshoot and optimize existing applications.
  - Participated in code reviews and agile ceremonies, fostering a culture of continuous improvement within the team.
- 

## Skills

- **Django**: Advanced - Expert in building web applications with a focus on DRY principles and RESTful APIs.
  - **Vue.js**: Intermediate - Capable of creating interactive user interfaces and single-page applications.
  - **Java**: Intermediate - Skilled in object-oriented programming and enterprise application development.
  - **Kubernetes**: Intermediate - Familiar with container orchestration and deployment strategies.
  - **AWS**: Beginner - Basic understanding of cloud services and deployment on Amazon Web Services.
- 

## Projects

- **Real-time Chat System**

Developed a full-featured chat application that supports real-time messaging and notifications, allowing users to communicate seamlessly. Utilized Django for back-end services and Vue.js for an interactive front-end experience.

- **Payment Processing System**

Engineered a secure payment gateway that handles transactions efficiently, integrating with various payment providers. Implemented best practices for

security and compliance, contributing to a 15% increase in transaction success rates.

---

## Education

### **Bachelor of Science in Computer Science**

**Millerburgh University** - Millerburgh, NY

*Graduated: May 2017*

- **Relevant Coursework:** Software Engineering, Database Systems, Cloud Computing, Web Development
- 

## Certifications

- **Google Cloud Professional**

Achieved certification in cloud technologies, demonstrating proficiency in designing and managing solutions on the Google Cloud Platform.

---
