**Location:** Stacyview

---

## Summary

Dynamic and detail-oriented programmer with a strong foundation in software development and a passion for building efficient, scalable applications. With expertise in **Flask** and **Machine Learning**, I possess a unique blend of skills that bridge the gap between front-end and back-end development. Adept at collaborating with cross-functional teams and delivering solutions that enhance user experience and drive business results. Committed to continuous learning and professional growth.

---

## Experience

### Software Engineer

**Tech Innovations Inc.** - Stacyview, CA

*June 2021 - Present*

- Developed and maintained a **Real-time Chat System** using **Flask** and **JavaScript**, enhancing user engagement by 30%.
- Integrated **AWS** services to improve application scalability, reducing downtime by 25% during peak usage.
- Collaborated with a team of 8 to implement DevOps practices, resulting in a 40% increase in deployment efficiency.
- Mentored junior developers in best coding practices and technology stack, fostering a culture of knowledge sharing.

## Junior Developer

**Creative Solutions LLC** - Stacyview, CA

*January 2020 - May 2021*

- Contributed to the development of a **Web Application** for e-commerce, utilizing **TypeScript** and **PostgreSQL**, which improved sales by 20%.
  - Assisted in the migration of legacy systems to a microservices architecture using **MongoDB**, increasing system performance and reliability.
  - Participated in Agile ceremonies as part of the Scrum team, ensuring timely delivery of features and improvements.
- 

## Skills

- **Flask** - Expert
  - **JavaScript** - Advanced
  - **AWS** - Advanced
  - **MySQL** - Intermediate
  - **PostgreSQL** - Intermediate
  - **MongoDB** - Intermediate
  - **TypeScript** - Intermediate
  - **DevOps** - Intermediate
  - **Machine Learning** - Expert
  - **Java** - Beginner
- 

## Projects

- **Real-time Chat System**

Designed and implemented a scalable chat application that supports real-time messaging and notifications. Utilized **Flask** for the backend and **JavaScript** for the client-side, achieving a user satisfaction rate of over 90%.

- **Web Application**

Developed a full-stack e-commerce platform that allowed users to browse, purchase, and review products. Leveraged **TypeScript** and **PostgreSQL**, leading to a 25% reduction in cart abandonment rates.

- **Mobile App**

Collaborated on a cross-functional team to create a mobile application for event management, enhancing user engagement with onboarding processes and push notifications.

---

## Certifications

- **Microsoft Azure Developer**
  - **Certified Kubernetes Administrator**
  - **Scrum Master Certification**
- 

## Education

### **Bachelor of Science in Computer Science**

University of Stacyview, Stacyview, CA

*Graduated: May 2019*

- Relevant Coursework: Data Structures, Web Development, Database Management, Machine Learning
  - Projects: Developed a capstone project on predictive analytics using Python and machine learning algorithms.
- 

## Additional Information

- Passionate about open-source contributions and actively participate in local tech meetups.
- Continuously exploring advancements in AI and cloud computing technologies to enhance my skill set and contribute to innovative solutions in the tech industry.
