**Location:** Ryanstad

---

## Summary

Passionate and detail-oriented programmer with over 5 years of experience in developing robust web applications and data-driven solutions. Proven ability to work collaboratively in dynamic environments and deliver high-quality products. Skilled in leveraging advanced technologies and methodologies to drive project success.

---

## Experience

### Software Developer

**Tech Innovators Inc.** - Ryanstad, USA

*January 2021 - Present*

- Developed a **real-time chat system** using **Node.js** and **Redis**, enhancing user engagement by 30%.
- Led a team in the creation of an **e-commerce platform**, integrating **PostgreSQL** for database management, resulting in a 25% increase in sales over six months.
- Collaborated with data scientists to implement a **machine learning pipeline** that improved predictive analytics accuracy by 40%.

## Junior Software Engineer

**Creative Solutions Ltd.** - Ryanstad, USA

*June 2018 - December 2020*

- Contributed to the development of a **content management system** using **TypeScript** and **MySQL**, reducing content publishing time by 50%.
  - Assisted in transitioning legacy systems to modern architectures, applying **C++** for performance optimization.
  - Built and maintained internal tools that streamlined operations, utilizing **Git** for version control.
- 

## Skills

- **Node.js**: Advanced
  - **TypeScript**: Advanced
  - **Redis**: Advanced
  - **MySQL**: Intermediate
  - **PostgreSQL**: Intermediate
  - **C++**: Intermediate
  - **Java**: Intermediate
  - **Data Science**: Intermediate
  - **Machine Learning**: Intermediate
  - **MongoDB**: Beginner
  - **Python**: Beginner
  - **Git**: Intermediate
  -
- 

## Projects

- **Web Application**: Developed a fully functional web application for a local business, incorporating user authentication and real-time data updates, leading to a 20% increase in customer interactions.
- **Machine Learning Pipeline**: Designed and implemented a machine learning pipeline that analyzed customer data, allowing for personalized marketing strategies and improving customer retention by 15%.

- **E-commerce Platform:** Spearheaded the design and development of a responsive e-commerce platform, implementing secure payment processing and multi-language support, which attracted a diverse customer base.
  - **Content Management System:** Created a user-friendly CMS for a nonprofit organization, enabling non-technical staff to manage website content independently.
- 

## Education

**Bachelor of Science in Computer Science**

**Ryanstad University** - Ryanstad, USA

*Graduated: May 2018*

---

## Certifications

- **Scrum Master Certification**  
Certified Scrum Alliance, 2021
- 

## Additional Information

- Actively participate in local coding meetups and hackathons, fostering community engagement and continuous learning.
- Passionate about exploring new technologies and methodologies in software development, particularly in the fields of data science and machine learning.
