

David Gibbs

Email: sarah46@example.com

Location: South Sherry

Summary

Dynamic and passionate software developer with a strong background in full-stack development and cloud solutions. Proven ability to leverage advanced skills in Rust and Go to build scalable applications. Adept at collaborating with cross-functional teams to deliver high-quality software solutions. Seeking opportunities to contribute to innovative projects that challenge my skills and fuel my passion for technology.

Experience

Software Developer

Tech Innovations Inc., South Sherry

January 2021 - Present

- Developed a **Data Analytics Dashboard** using **React** and **Flask**, improving data visualization for clients by 40%.
- Led the creation of a **Machine Learning Pipeline** that automated data processing tasks, reducing manual workload by 30%.
- Collaborated with a team to build an **E-commerce Platform** with **Node.js** and **PostgreSQL**, resulting in a 25% increase in client sales.
- Implemented a **Payment Processing System** using **Docker** and **Kubernetes**, ensuring a secure and efficient transaction process.

Junior Developer

Web Solutions Ltd., South Sherry

June 2019 - December 2020

- Contributed to developing a **Mobile App** utilizing **TypeScript** and **React**, achieving a 4.5-star rating on app stores within three months of launch.
 - Assisted in migrating legacy systems to cloud infrastructure on **Google Cloud**, enhancing system reliability and scalability.
 - Participated in code reviews and maintained documentation, ensuring best practices in software development.
-

Skills

- **Programming Languages:**

- Rust (Expert)
- Go (Expert)
- Python (Intermediate)
- JavaScript (Intermediate)
- TypeScript (Intermediate)

- **Frameworks and Libraries:**

- React (Expert)
- Flask (Advanced)
- Node.js (Intermediate)

- **Database Technologies:**

- PostgreSQL (Intermediate)
- MongoDB (Beginner)

- **DevOps Tools:**

- Docker (Intermediate)
 - Kubernetes (Intermediate)
-

Projects

- **Data Analytics Dashboard**

Developed a powerful dashboard allowing users to visualize complex datasets, facilitating data-driven decision-making for clients in various industries.

- **Machine Learning Pipeline**

Created a robust pipeline that streamlined data ingestion and processing, enabling faster model training and deployment.

- **E-commerce Platform**

Architected and implemented a full-featured online store, integrating payment gateways and inventory management systems.

- **Payment Processing System**

Designed a secure transaction processing system, achieving PCI compliance and reducing transaction times by 20%.

- **Mobile App**

Developed a cross-platform mobile application that enhances user engagement through personalized content delivery.

Education

Bachelor of Science in Computer Science

South Sherry University

Graduated: May 2019

- Dean's List (2017-2019)
 - Completed coursework in Software Engineering, Data Structures, and Cloud Computing.
-

Certifications

- **Google Cloud Professional**

Acquired knowledge in cloud architecture and deployment, enhancing skills in managing cloud-based applications and services.
