Summary

Results-driven programmer with **12 years** of experience specializing in high-performance applications and microservices. Proven expertise in **C++**, **Node.js**, and **MongoDB**. Strong soft skills in **Cross-functional Communication**, **Problem Solving**, and **Public Speaking**.

Education

B.Sc. in Computer Science

Warsaw University of Technology

- **Rank:** #50

- **GPA:** 3.23

Skills

- **C++:** Expert (10 yrs)
- **Node.js:** Expert (10 yrs)
- **TypeScript:** Advanced (6 yrs)
- **MongoDB:** Expert (11 yrs)
- **PostgreSQL:** Intermediate (2 yrs)
- **AWS:** Advanced (4 yrs)
- **Jenkins:** Expert (12 yrs)

Soft Skills

- Cross-functional Communication
 - Problem Solving
 - Public Speaking
-

Languages

- English (Native)
-

Certifications

- **Certified Kubernetes Administrator**
Score: 953
Expiration: 2027-10-27
 - **Microsoft Azure Developer**
Score: 739
Expiration: 2026-10-06
 - **Docker Certified Associate**
Score: 880
Expiration: 2028-01-22
-

Experience

Senior Software Engineer

FinTech Startup

Company Size: 50-100 employees

Duration: 2019 - Present

- Led the development of a **Payment Processing System** that improved transaction efficiency by 30%.

- Designed and implemented an **API Gateway** leveraging **Node.js**, facilitating seamless integration with third-party services.
- Collaborated with cross-functional teams to enhance the overall architecture of the application using **Microservices Architecture** principles.

Software Engineer

E-commerce Enterprise

Company Size: 500+ employees

Duration: 2015 - 2019

- Played a key role in a team responsible for building a **Machine Learning Pipeline** that personalized user experiences, resulting in a 20% increase in sales.
- Developed scalable backend services using **C++** and **MongoDB**, enabling quick access to large datasets.
- Implemented CI/CD processes with **Jenkins**, reducing deployment times and improving code quality.

Junior Developer

Tech Startup

Company Size: 10-50 employees

Duration: 2011 - 2015

- Contributed to various projects using **TypeScript** and **PostgreSQL**, enhancing application performance and reliability.
- Assisted in the migration of legacy systems to cloud-based solutions using **AWS**, significantly reducing operational costs.
