Location: Allisonmouth

Summary

Detail-oriented and innovative programmer with over 5 years of experience in developing scalable web applications and data-driven solutions. Proficient in a diverse range of programming languages and frameworks, with a strong emphasis on creating user-friendly interfaces and enhancing back-end performance.

Passionate about leveraging cloud technologies to optimize application deployment and improve system reliability.

Experience

Software Developer

Tech Innovators Inc. | May 2020 - Present

Allisonmouth, USA

- Designed and implemented a **Data Analytics Dashboard** that increased data retrieval speed by **40%**, allowing users to visualize key metrics in real-time.
- Collaborated with cross-functional teams to develop a fully responsive **E-commerce Platform** using **Angular** and **Flask**, resulting in a **25% increase in sales** within the first quarter of launch.
- Improved application performance by optimizing API calls and implementing microservices architecture, significantly enhancing scalability and maintainability.

Front-End Developer

Creative Solutions Co. | June 2018 - April 2020

Allisonmouth, USA

- Developed interactive web components using **React** and **JavaScript**, which improved user engagement by **30%**. - Contributed to the development of a **Mobile App** that achieved a **4.5-star rating** on both iOS and Android platforms, ensuring a seamless user experience across devices. - Assisted in the transition from monolithic to microservices architecture, enhancing the team's deployment efficiency.

Skills

- **Flask**: Advanced
 - **Angular**: Advanced
 - **C++**: Intermediate
 - **Rust**: Intermediate
 - **React**: Intermediate
 - **JavaScript**: Intermediate
 - **Microservices**: Beginner
-

Projects

Data Analytics Dashboard

- Developed a comprehensive dashboard that integrates various data sources, providing stakeholders with actionable insights. Utilized **Flask** for back-end services and **React** for a dynamic front-end experience.

Mobile App

- Led the front-end development of a mobile application for retail management, which streamlined inventory tracking and sales reporting for over **500 users**.

E-commerce Platform

- Architected and deployed an e-commerce platform that supports **thousands of concurrent users**, leveraging **Angular** for the front end and **Flask** for the back end, improving overall performance and user satisfaction.
-

Certifications

- **Google Cloud Professional**
 - **Microsoft Azure Developer**
-

Education

Bachelor of Science in Computer Science

State University | Graduated: May 2018

Allisonmouth, USA

- Relevant Coursework: Data Structures and Algorithms, Web Development, Cloud Computing, Software Engineering.

Additional Information

- Passionate about continuous learning and currently pursuing advanced courses in cloud-based architecture and microservices.
- Active member of the local tech community, participating in hackathons and mentoring new developers.
