## Summary

Dynamic and results-oriented programmer with over 5 years of experience in software development. Proficient in multiple programming languages and frameworks, with a strong passion for building scalable applications and driving innovation. Proven track record of delivering high-quality solutions that enhance user experience and optimize performance. Seeking to leverage my skills in a challenging programming role where I can contribute to impactful projects.

---

## Experience

### Software Engineer

**Tech Innovations Inc.** — Lambury, UK

*January 2020 - Present*

- Developed and maintained microservices architecture for a high-traffic e-commerce platform, resulting in a **30% increase in site performance**.
- Led the implementation of a **Data Analytics Dashboard** using FastAPI and JavaScript, enabling business stakeholders to visualize key metrics and make data-driven decisions.
- Collaborated with cross-functional teams to streamline the deployment process using Jenkins, reducing deployment times by **40%**.

## Junior Developer

**Creative Solutions Ltd.** — Lambury, UK

*June 2018 - December 2019*

- Contributed to the development of a **Mobile App** that reached over **10,000 downloads** within the first month, enhancing user engagement through intuitive design and functionality.
  - Assisted in creating RESTful APIs for various applications, utilizing Flask and Java, which improved data retrieval times by **25%**.
  - Participated in Agile development processes and utilized Git for version control, ensuring seamless collaboration within the development team.
- 

## Skills

- **C++**: Advanced
  - **Java**: Advanced
  - **JavaScript**: Advanced
  - **DevOps**: Advanced
  - **Jenkins**: Advanced
  - **Microservices**: Advanced
  - **Flask**: Intermediate
  - **FastAPI**: Intermediate
  - **MySQL**: Intermediate
  - **AWS**: Beginner
  - **Git**: Beginner
- 

## Projects

- **API Gateway**: Designed and developed a robust API Gateway for microservices communication, which simplified service interactions and improved security protocols for sensitive data transactions.
- **Data Analytics Dashboard**: Spearheaded the creation of a dashboard that aggregates and visualizes data from various sources, leading to actionable insights and informed strategic decisions for the marketing team.

- **Mobile App:** Developed a user-friendly mobile application that provides real-time updates and notifications, achieving high user satisfaction ratings and positive feedback in app stores.
- 

## Education

### Bachelor of Science in Computer Science

Lambury University — Lambury, UK

*Graduated: May 2018*

- Relevant Coursework: Software Engineering, Database Management, Web Development, Cloud Computing
  - Capstone Project: Developed an automated testing framework for web applications, which reduced testing time by **50%**.
- 

## Certifications

- AWS Certified Cloud Practitioner (2023)
- Certified Jenkins Engineer (2022)
- Microservices Architecture: Make a Real-World Application (2021)
