Score: 743, Exp: 2026-01-04
-

Experience

Senior Software Engineer

FinTech Startup

Company Size: 50 Employees

2020 - Present

- Led the development of an **API Gateway** that streamlined interactions between multiple microservices, enhancing system performance and scalability.
- Spearheaded the creation of a **Real-time Chat System**, improving customer support response times by 40%, which significantly increased user satisfaction.

Software Developer

E-commerce Enterprise

Company Size: 500+ Employees

2015 - 2020

- Designed and implemented a robust **Content Management System** that allowed non-technical staff to manage website content efficiently, reducing the reliance on developers for updates.
- Developed a secure **Payment Processing System** that handled transactions for over 1 million users, ensuring compliance with industry security standards.

Junior Developer

Tech Consulting Firm

Company Size: 100 Employees

2010 - 2015

- Assisted in the development of various client projects, focusing on database optimizations and performance enhancements using Redis.
 - Collaborated with cross-functional teams to deliver software solutions that met client specifications and deadlines.
-
