Score: 783 | Expiration: 2027-11-06
 - **Docker Certified Associate**
Score: 786 | Expiration: 2027-10-20
-

Experience

Senior Software Engineer

Tech Innovations Inc. (FinTech, Enterprise)

April 2018 - Present

- Developed a **Real-time Chat System** using Spring Boot and WebSocket,

enhancing communication for financial transactions.

- Led a team of 5 in implementing microservices architecture with Kubernetes and Terraform, improving deployment efficiency by 30%.
- Collaborated with data scientists to create a **Data Analytics Dashboard** for real-time financial insights, utilizing PostgreSQL and Redis.

Software Developer

NextGen Solutions (Tech Startup, Startup)

June 2015 - March 2018

- Designed and implemented frontend components using Next.js and TypeScript, improving user experience and performance metrics by 25%.
- Worked on backend services in C++ and Spring Boot, ensuring high availability and scalability of microservices.
- Participated in Agile sprints, focusing on continuous integration and deployment practices.

Junior Developer

CodeCraft Ltd. (E-commerce, Startup)

January 2014 - May 2015

- Assisted in the development of web applications using Java and PostgreSQL, contributing to a 15% increase in sales through improved site performance.
 - Engaged in code reviews and collaborated with senior developers to enhance coding standards and practices.
-
