## Summary

---

Seasoned programmer with **11 years** of comprehensive experience in software development, specializing in Rust and MongoDB. Recognized for strong **adaptability**, **problem-solving**, and **conflict resolution** skills. Proven success in collaborative environments utilizing **Scrum** methodologies and dedicated to mentoring junior developers.

---

## Education

---

**M.Sc. in Software Engineering**

Warsaw University of Technology

*Rank: #50 | GPA: 3.88*

---

## Skills

---

- **Rust:** Expert (9 yrs)
  - **MongoDB:** Expert (11 yrs)
  - **PostgreSQL:** Expert (7 yrs)
  - **Azure:** Advanced (4 yrs)
  - **React:** Intermediate (2 yrs)
-

## Soft Skills

---

- Adaptability
  - Problem Solving
  - Conflict Resolution
  - Scrum
  - Mentoring
- 

## Languages

---

- **English:** C1
  - **German:** B2
- 

## Experience

---

### Senior Software Engineer

#### **FinTech Startup** (50 employees)

*January 2016 - Present*

- Developed an **API Gateway** that enhanced system interoperability and reduced response times by 30%.
- Led a team of 5 in creating a web-based application that streamlined financial transactions, achieving a 25% increase in user engagement.
- Implemented best practices for database management using **MongoDB** and **PostgreSQL**, optimizing queries and improving data retrieval times.

### Software Developer

#### **Healthcare Enterprise** (500 employees)

*June 2012 - December 2015*

- Designed and maintained scalable **web applications** for patient management systems, utilizing **Rust** for backend services.
- Collaborated with cross-functional teams to gather requirements and deliver solutions that improved operational efficiency by 20%.

- Played a key role in Agile ceremonies, ensuring sprint goals were met and facilitating effective team communication.

## Junior Developer

### **E-commerce Startup** (20 employees)

*July 2010 - May 2012*

- Assisted in the development of a customer-facing platform using **React**, focusing on enhancing user experience.
  - Engaged in database design and management using **MongoDB**, contributing to successful project launches within tight deadlines.
  - Supported senior developers in troubleshooting and debugging applications, gaining hands-on experience in software development best practices.
-
