Location: Gonzalesside

Summary

Enthusiastic and detail-oriented software developer with over 5 years of experience in designing and implementing scalable web applications. Proficient in JavaScript, React, and TypeScript, with a strong focus on creating seamless user experiences. Passionate about leveraging modern technologies to solve complex problems and enhance system performance.

Experience

Software Developer

Tech Innovations Ltd – Gonzalesside, CA

January 2020 – Present

- Developed a **Content Management System** that improved client content delivery times by 30%, utilizing **React** and **TypeScript** for a dynamic user interface.
- Collaborated with cross-functional teams to design and implement a **Payment Processing System**, increasing transaction efficiency by 25%.
- Utilized **Docker** for containerization, which streamlined deployment processes and reduced server costs by 15%.
- Played a key role in transitioning the team to **Microservices** architecture, leading to improved system reliability and scalability.

Junior Developer

NextGen Solutions – Gonzalesside, CA

June 2018 – December 2019

- Assisted in the development of various web applications using **JavaScript**, **Go**, and **MySQL**, which enhanced data management capabilities for clients.
 - Implemented machine learning algorithms for data analysis, resulting in a 20% increase in predictive accuracy for client projects.
 - Maintained and improved existing codebases using **Git**, ensuring high-quality standards and adherence to best practices.
-

Skills

- **JavaScript**: Advanced
 - **React**: Advanced
 - **TypeScript**: Advanced
 - **Docker**: Intermediate
 - **Go**: Intermediate
 - **Machine Learning**: Intermediate
 - **Git**: Intermediate
 - **MySQL**: Intermediate
 - **C++**: Intermediate
 - **Java**: Intermediate
 - **Microservices**: Beginner
-

Projects

Content Management System

- Developed a comprehensive CMS that allows users to easily manage and publish content, integrating third-party APIs for enhanced functionality.
- Implemented user authentication and authorization features to ensure secure access.

Payment Processing System

- Designed and built a payment gateway that supports multiple payment methods and currencies, facilitating global transactions.
 - Worked closely with the QA team to ensure the system met security standards and compliance regulations.
-

Education

Bachelor of Science in Computer Science

Gonzalesside University – Gonzalesside, CA

Graduated: May 2018

- Relevant Coursework: Software Development, Database Management, Machine Learning, Web Technologies.
 - Graduated with honors, achieving a GPA of 3.8.
-

Certifications

- **Certified JavaScript Developer** – JavaScript Institute, 2021
 - **Docker Essentials** – Docker, Inc., 2020
 - **Machine Learning Foundations** – Coursera, 2019
-
