Summary

Passionate and results-driven programmer with over 5 years of experience in developing high-quality web applications and data-driven solutions. Specializing in modern JavaScript frameworks with a strong focus on user experience and performance optimization. Adept at leveraging machine learning techniques to enhance application functionality and drive business growth. Proven ability to collaborate effectively with cross-functional teams and deliver projects on time.

Experience

Software Developer

Tech Innovations Ltd. | Erinmouth, UK

June 2020 – Present

- Developed a **Real-time Chat System** using React and Firebase, enabling seamless communication for over 50,000 users, improving user engagement by 30%.
- Designed and implemented a **Machine Learning Pipeline** for predictive analytics, reducing data processing time by 40% and providing actionable insights for the marketing team.
- Collaborated with a team of 8 to maintain and enhance a **Content Management System**, which increased content delivery speed by 25%.

Junior Developer

Creative Solutions Inc. | Erinmouth, UK

January 2018 – May 2020

- Contributed to the development of multiple web applications using Vue.js and Angular, improving application responsiveness and user satisfaction.
 - Integrated PostgreSQL databases to manage and store application data efficiently, achieving a 20% improvement in data retrieval times.
 - Assisted in the deployment of applications using Jenkins and Kubernetes, gaining hands-on experience in CI/CD processes.
-

Skills

- **Vue.js:** Expert
 - **React:** Advanced
 - **Angular:** Intermediate
 - **JavaScript:** Intermediate
 - **Python:** Intermediate
 - **PostgreSQL:** Intermediate
 - **Machine Learning:** Intermediate
 - **Data Science:** Advanced
 - **Git:** Expert
 - **Kubernetes:** Advanced
 - **Jenkins:** Beginner
-

Projects

- **Real-time Chat System:** Developed a scalable chat application using React and WebSocket, supporting real-time messaging and notifications, resulting in a 30% increase in user engagement.
- **Machine Learning Pipeline:** Created a robust pipeline using Python and various ML libraries to automate data analysis, which improved data accuracy and reduced manual work by 50%.

- **Content Management System:** Led the development of a CMS that streamlined content updates for over 100 clients, resulting in a significant reduction in content deployment time.
-

Certifications

- **Docker Certified Associate**
 - **Google Cloud Professional**
 - **Microsoft Azure Developer**
-

Education

Bachelor of Science in Computer Science

University of Erinmouth | Erinmouth, UK

Graduated: June 2017

- Completed coursework in Software Development, Data Structures, and Machine Learning.
 - Participated in a capstone project focused on developing an AI-driven application for real-time data analysis.
-

Additional Information

- Active contributor to open-source projects on GitHub, focusing on improving community-driven software solutions.
 - Regular attendee of local tech meetups and hackathons to stay updated with the latest industry trends and technologies.
-
