

Brian English

Email: christopherstein@example.com

Location: Smithside

Summary

Dynamic and results-driven software engineer with over 5 years of experience in developing scalable applications and delivering innovative solutions. Proficient in Java and adept in modern software development methodologies, including Agile and DevOps practices. Passionate about leveraging technology to solve real-world problems and enhance user experiences.

Experience

Senior Software Engineer

Tech Innovations Inc., Smithside

June 2021 - Present

- Led a team of 5 in the development of a **Payment Processing System** that decreased transaction times by 30% and improved reliability by implementing microservices architecture.
- Designed and implemented an **API Gateway** using Java and Node.js, which facilitated seamless communication between various services and reduced latency by 25%.
- Championed the use of **Jenkins** for continuous integration and deployment, increasing deployment frequency by 40%.

Software Developer

Creative Solutions Ltd., Smithside

January 2018 - May 2021

- Contributed to the creation of a **Real-time Chat System** that supported over 10,000 concurrent users, utilizing Node.js and WebSocket technology.
 - Collaborated with cross-functional teams to develop an **E-commerce Platform** that achieved a 50% increase in user retention through enhanced user experience and personalized recommendations.
 - Developed and maintained containerized applications using **Kubernetes**, improving application scalability and reliability.
-

Skills

- **Java:** Expert
 - **Jenkins:** Advanced
 - **Kubernetes:** Intermediate
 - **Node.js:** Intermediate
 - **Microservices:** Intermediate
-

Projects

- **Mobile App:** Developed a cross-platform mobile application that supports both iOS and Android, leading to a 20% increase in customer engagement.
 - **API Gateway:** Implemented a robust API gateway that improved service integration and reduced response time by 15%.
 - **Payment Processing System:** Spearheaded the development of a secure payment gateway, processing over 1,000 transactions per hour.
 - **E-commerce Platform:** Played a key role in creating a fully functional e-commerce site that generated \$500,000 in sales in its first year.
 - **Real-time Chat System:** Engineered a chat system that facilitated real-time communication, enhancing user interaction and satisfaction.
-

Education

Bachelor of Science in Computer Science

Smithside University

Graduated: May 2017

Certifications

- **Certified Kubernetes Administrator (CKA)**
 - **Oracle Certified Professional, Java SE 11 Developer**
 - **Certified Jenkins Engineer (CJE)**
-

Additional Information

- **GitHub:** github.com/brianenglish
- Actively participates in local tech meetups and hackathons to stay updated with industry trends and technologies.
- Passionate about open-source contributions and mentoring junior developers.
