**Location:** West Elizabethborough

---

## Summary

Detail-oriented and passionate programmer with over 5 years of experience in full-stack development. Proficient in building scalable web applications and enhancing system performance through innovative solutions. Known for the ability to collaborate effectively within teams and deliver projects on time. Eager to leverage skills in Angular, Kubernetes, and Git to contribute to impactful projects.

---

## Experience

### Software Developer

**Tech Innovations Inc.** - West Elizabethborough

*March 2020 - Present*

- Developed a robust **E-commerce Platform** that improved user engagement by 30% through an intuitive UI built with Angular.
- Led a team of 5 in implementing a **Content Management System** which reduced content update time by 40%.
- Utilized **Kubernetes** to streamline deployment processes, achieving a reduction in downtime by 25%.
- Enhanced CI/CD workflows with **Jenkins**, leading to a 50% decrease in deployment times.

## Junior Developer

**Web Solutions Corp.** - West Elizabethborough

*June 2018 - February 2020*

- Collaborated on an **API Gateway** project, which enhanced data processing speed by 20% through optimized routing strategies.
  - Assisted in the migration of legacy applications to modern frameworks, gaining hands-on experience with **Flask** and **Git**.
  - Contributed to team efforts in Agile methodologies, resulting in more efficient project management and delivery.
- 

## Skills

- **C++** (Beginner)
  - **Rust** (Intermediate)
  - **Angular** (Advanced)
  - **Kubernetes** (Advanced)
  - **Git** (Advanced)
  - **Flask** (Intermediate)
  - **Jenkins** (Intermediate)
- 

## Projects

- **E-commerce Platform**  
Developed a full-featured e-commerce site using Angular, which included payment integrations and user authentication. Achieved a 30% increase in sales within the first quarter of launch.
- **Content Management System**  
Designed and implemented a CMS that allowed non-technical staff to manage website content easily. Led to a 40% reduction in time spent on content updates.

- **API Gateway**

Created a lightweight API gateway that facilitated communication between services, enhancing overall system performance and scalability.

---

## Certifications

- Docker Certified Associate
  - Scrum Master Certification
  - AWS Certified Solutions Architect
- 

## Education

### **Bachelor of Science in Computer Science**

#### **West Elizabethborough University**

*Graduated: May 2018*

- Graduated with Honors.
  - Completed a capstone project on cloud-native applications which laid the groundwork for future work in Kubernetes and AWS.
-
