Location: South Kevin

Summary

Innovative and results-driven programmer with over 5 years of experience in software development and a strong focus on building scalable and efficient applications. Proficient in a range of programming languages and frameworks with a passion for leveraging machine learning to create intelligent systems. Adept at collaborating with cross-functional teams to deliver high-quality software solutions on time and within budget.

Experience

Senior Software Engineer

Tech Innovations Inc., South Kevin

June 2020 – Present

- Led the development of a **Microservices Architecture** that improved system scalability by 40%, allowing the company to handle a 60% increase in user traffic.
- Designed and implemented an **API Gateway** that streamlined communication between services, reducing response time by 25%.
- Collaborated with data scientists to integrate **Machine Learning** models into existing applications, enhancing user personalization features.

Software Developer

Creative Solutions LLC, South Kevin

March 2018 – May 2020

- Developed a **Real-time Chat System** using **FastAPI** and **Vue.js**, facilitating

seamless communication for over 10,000 users. - Contributed to the transition of legacy systems to cloud infrastructure using **AWS**, resulting in a 30% reduction in operational costs. - Actively participated in code reviews and mentoring junior developers, fostering a culture of continuous improvement.

Junior Developer

Web Dynamics Corp., South Kevin

January 2016 – February 2018

- Assisted in the development of various web applications using **JavaScript**, **Go**, and **Docker**. - Improved application performance by optimizing code and implementing best practices, achieving a 20% increase in load speed. - Gained exposure to agile methodologies and participated in daily stand-ups and sprint planning.

Skills

- **JavaScript**: Expert
 - **FastAPI**: Expert
 - **Go**: Advanced
 - **Java**: Advanced
 - **C++**: Advanced
 - **Git**: Intermediate
 - **Vue.js**: Intermediate
 - **Machine Learning**: Intermediate
 - **AWS**: Intermediate
 - **Docker**: Beginner
-

Projects

- **Microservices Architecture**: Spearheaded the design and implementation of a microservices architecture for a large-scale e-commerce platform, enhancing modularity and reducing deployment times by 50%.
- **API Gateway**: Developed an API gateway that improved service communication and reduced latency, achieving a 25% faster response time across multiple services.

- **Real-time Chat System:** Engineered a chat application with real-time capabilities, which successfully supported over 10,000 concurrent users with minimal downtime.
-

Certifications

- **Certified Kubernetes Administrator**
 - **Docker Certified Associate**
-

Education

Bachelor of Science in Computer Science

University of South Kevin

Graduated: May 2015

- Graduated with honors, focusing on software engineering and machine learning applications.

Additional Information

- Actively contribute to open-source projects and participate in hackathons to stay current with industry trends.
- Passionate about developing innovative solutions that leverage technology to solve real-world problems.
