Summary

Dynamic and results-driven programmer with over 5 years of experience in developing scalable web applications and microservices. Proficient in both front-end and back-end development, with a strong emphasis on delivering high-quality solutions within tight deadlines. Adept at collaborating with cross-functional teams to enhance productivity and drive project success.

Experience

Software Engineer

Tech Innovations Inc. – Thomasfurt, Germany

March 2021 – Present

- Spearheaded the development of an **E-commerce Platform**, resulting in a 30% increase in user engagement and a 25% boost in sales within the first quarter of launch.
- Designed and implemented microservices architecture, leading to a 40% reduction in deployment times and improved scalability.
- Collaborated with UI/UX designers to enhance the front-end using **Angular**, achieving a 15% decrease in customer complaints regarding user interface issues.

Full Stack Developer

NextGen Solutions – Thomasfurt, Germany

June 2018 – February 2021

- Developed a **Payment Processing System** that handled over 10,000 transactions per day with a 99.9% uptime, improving the overall reliability of the platform.
- Utilized **Node.js** and **Django** for backend services, optimizing data retrieval times by 50%

through effective database indexing and API improvements. - Implemented version control practices using **Git**, facilitating smoother collaboration among team members.

Junior Developer

Creative Web Solutions – Thomasfurt, Germany

July 2016 – May 2018

- Assisted in the development of a **Mobile App** for both iOS and Android platforms, which garnered over 5,000 downloads within the first month of release. - Gained hands-on experience with **MongoDB**, contributing to the design of the database schema and ensuring data integrity for mobile users. - Participated in code reviews and debugging sessions, fostering a culture of knowledge sharing and continuous improvement among peers.

Skills

- **Microservices**: Advanced
- **Angular**: Advanced
- **Node.js**: Intermediate
- **Django**: Intermediate
- **Git**: Intermediate
- **MongoDB**: Beginner

Projects

- **E-commerce Platform**: Developed a comprehensive e-commerce solution integrating payment gateways, user authentication, and product management features, enhancing user experience and operational efficiency.
- **Payment Processing System**: Created a secure and efficient system for handling online transactions, which significantly reduced processing times and improved customer satisfaction.
- **Mobile App**: Designed and implemented a cross-platform mobile application focused on user engagement, leading to high retention rates and positive user feedback.

Certifications

- **Google Cloud Professional**
- **AWS Certified Solutions Architect**

Education

Bachelor of Science in Computer Science

Technical University of Thomasfurt – Thomasfurt, Germany

Graduated: June 2016

- Graduated with honors, focusing on software development and cloud computing technologies.
- Completed a capstone project on microservices architecture that received accolades from faculty for innovation and practicality.

Interests

- Passionate about open-source contributions and regularly participate in hackathons to refine skills and collaborate with fellow developers.
- Enjoy exploring emerging technologies and frameworks to stay ahead in the fast-evolving tech landscape.
