**Location:** Lopezberg

---

## Summary

Dedicated and proficient software engineer with a strong background in developing scalable applications and microservices. Passionate about leveraging cutting-edge technologies to solve complex problems and enhance user experience. Proven ability to collaborate in agile teams and deliver high-quality solutions under tight deadlines. Seeking to contribute my expertise in Java, TypeScript, and Node.js to innovative projects.

---

## Experience

### Software Engineer

**Tech Innovators Inc.** - Lopezberg, CA

*January 2022 - Present*

- Developed and deployed a **Real-time Chat System** using Node.js and WebSocket, enhancing user engagement by 30%.
- Led a team of 5 developers to create a **Data Analytics Dashboard** that improved data visualization and reporting speed by 40%.
- Implemented microservices architecture for a **Content Management System**, reducing deployment time by 25%.
- Utilized Git for version control, ensuring seamless collaboration across multiple teams.

## Junior Developer

**NextGen Solutions** - Lopezberg, CA

*June 2020 - December 2021*

- Contributed to the development of an **E-commerce Platform**, incorporating payment processing and inventory management features.
  - Collaborated with data scientists to integrate **Advanced Data Science** techniques, resulting in a 20% increase in sales predictions accuracy.
  - Assisted in the implementation of Docker containers to streamline application deployment and improve scalability.
- 

## Skills

- **Java**: Expert
  - **TypeScript**: Expert
  - **Node.js**: Expert
  - **Git**: Expert
  - **Data Science**: Advanced
  - **Microservices**: Intermediate
  - **Django**: Intermediate
  - **Python**: Intermediate
  - **Docker**: Intermediate
  - **Vue.js**: Intermediate
  - **Machine Learning**: Beginner
- 

## Projects

- **Real-time Chat System**: Designed and implemented a chat application that allows users to communicate in real-time. Utilized Node.js and WebSocket for seamless messaging.
- **Data Analytics Dashboard**: Developed an interactive dashboard that provides real-time analytics and insights, significantly enhancing decision-making processes for the management team.

- **Content Management System:** Built a robust CMS enabling users to create, edit, and manage web content efficiently. Focused on optimizing the user interface and backend services.
  - **E-commerce Platform:** Played a key role in building an online shopping platform with features such as product listings, a shopping cart, and checkout processes, resulting in a user-friendly experience.
- 

## Certifications

- **Scrum Master Certification** - Certified in Agile methodologies, with hands-on experience leading scrum teams to successful project completion.
- 

## Education

**Bachelor of Science in Computer Science**

**University of Lopezberg** - Lopezberg, CA

*Graduated: May 2020*

- Relevant coursework: Software Engineering, Data Structures, Cloud Computing, Machine Learning
- 

## Additional Information

- Actively contributing to open-source projects on GitHub, focusing on enhancing community-driven software solutions.
- Passionate about staying up-to-date with the latest technology trends and continuously improving my skill set through online courses and workshops.
