**Email:** boydkathleen@example.org

**Phone:** 777-794-4764x3209

**Location:** North Sherri

**Hourly Rate:** \$129/hr

**Total Experience:** 10 years

---

## Summary

---

Experienced programmer with a total of 10 years in software development, specializing in C++ and Terraform. Possesses strong problem-solving abilities, conflict resolution skills, and effective cross-functional communication.

---

## Education

---

### M.Sc. in Software Engineering

Georgia Institute of Technology

*Rank: #15, GPA: 3.84*

---

## Skills

---

- **C++:** Expert (9 years)
  - **Terraform:** Advanced (5 years)
  - **Django:** Intermediate (2 years)
  - **MongoDB:** Intermediate (2 years)
  - **Rust:** Beginner (1 year)
-

## Soft Skills

---

- Problem Solving
  - Conflict Resolution
  - Cross-functional Communication
- 

## Languages

---

- English (Native)
  - German (B1)
  - Polish (Native)
- 

## Certifications

---

- **Docker Certified Associate**  
Score: 839, Expiration: 2028-07-13
  - **Google Cloud Professional**  
Score: 704, Expiration: 2028-10-25
- 

## Experience

---

### Senior Software Engineer

#### E-commerce Platform

*Industry: E-commerce, Size: Enterprise*

*January 2018 - Present*

- Led a team of developers to design and implement a scalable e-commerce platform using C++ and Django, resulting in a 30% increase in user engagement.
- Developed payment processing systems that improved transaction speed by 25%, utilizing Terraform for infrastructure management.

## Software Developer

### Payment Processing System

*Industry: FinTech, Size: Startup*

*June 2015 - December 2017*

- Collaborated in a cross-functional team to build a secure payment processing system, enhancing security protocols with C++.
- Implemented MongoDB for data storage solutions, optimizing data retrieval times by 15%.

## Junior Developer

### Tech Solutions Inc.

*Industry: Software Development, Size: Startup*

*April 2013 - May 2015*

- Assisted in the development of software applications using Django and Rust, contributing to various projects and gaining hands-on experience in agile methodologies.
- Supported the migration of legacy systems to modern platforms, improving system efficiency by 20%.
