## Summary

Innovative and results-driven programmer with over 5 years of experience in developing scalable web applications and cloud-based solutions. Proficient in a variety of programming languages and frameworks, with a strong emphasis on user-friendly design and performance optimization. Passionate about leveraging technology to solve complex problems and improve operational efficiency.

---

## Experience

### Senior Software Developer

**Tech Innovations Inc., Brianview**

*June 2020 - Present*

- Led the development of an **E-commerce Platform** that increased customer engagement by 40% and sales by 25% within the first quarter of launch.
- Implemented continuous integration and continuous deployment (CI/CD) pipelines using **Jenkins** and **Git**, which reduced deployment time by 30%.
- Collaborated with cross-functional teams to design and launch a **Real-time Chat System**, enhancing customer support and satisfaction ratings by 35%.

# Software Engineer

## Creative Solutions Ltd., Brianview

January 2018 - May 2020

- Developed and maintained web applications using **React** and **JavaScript**, achieving a 99.9% uptime and optimizing load times by 50%.
  - Utilized **Python** for backend development, focusing on data retrieval and processing, resulting in a 20% increase in data processing efficiency.
  - Participated in Agile development processes, contributing to sprint planning and reviews that improved team delivery timelines by 15%.
- 

## Skills

- **Java:** Advanced
  - **React:** Advanced
  - **Python:** Expert
  - **JavaScript:** Expert
  - **Git:** Advanced
  - **Jenkins:** Advanced
- 

## Projects

### E-commerce Platform

- Developed a full-stack e-commerce application that supports over 10,000 concurrent users, featuring a user-friendly interface and robust search functionality.
- Integrated payment gateways and implemented security protocols, achieving a secure transaction rate of 99.9%.

### Real-time Chat System

- Architected and developed a scalable real-time chat application using **React** and **Node.js**, facilitating seamless communication for over 5,000 users.

- Enhanced user experience through responsive design and real-time notifications, resulting in a 50% increase in user retention.
- 

## Certifications

- **Microsoft Azure Developer** (2021)
  - **Google Cloud Professional** (2022)
  - **Docker Certified Associate** (2023)
- 

## Education

**Bachelor of Science in Computer Science**

**University of Brianview**

*Graduated: May 2017*

- Relevant Coursework: Data Structures, Web Development, Cloud Computing, Software Engineering
  - Projects: Developed a mobile app for campus events, receiving recognition for best app in the annual tech fair.
- 

## Additional Information

- **Languages:** Fluent in English and Mandarin.
- **Interests:** Open-source contributions, attending tech meetups, and exploring new programming languages.
