Experience

Software Developer

E-commerce Platform | Startup

June 2021 - Present

- Developed and maintained a robust e-commerce platform, enhancing user experience and increasing transaction efficiency by 30%.
- Collaborated with cross-functional teams to design and implement an API Gateway, ensuring seamless integration with third-party services.
- Utilized PostgreSQL for database management, optimizing data retrieval times and improving application performance.

Junior Developer

Real-time Chat System | Enterprise

January 2020 - May 2021

- Contributed to the development of a real-time chat system, focusing on backend services with Java and integrating front-end solutions using Angular.
 - Assisted in the deployment of Jenkins for continuous integration and deployment, streamlining the development process and reducing deployment times.
 - Participated in Agile development methodologies, enhancing team collaboration and project delivery timelines.
-

Intern Developer

Mobile App & Web Application | Startup

June 2019 - December 2019

- Supported the development of a mobile app and web application, focusing on front-end features using JavaScript and Angular.
- Engaged in data science projects to analyze user interaction data, providing insights that drove design improvements and user engagement strategies.
