**Location:** South Davidmouth

---

## Summary

Detail-oriented and innovative programmer with over 5 years of experience in software development. Proficient in a range of programming languages and frameworks, with a strong focus on machine learning and modern web development. Adept at collaborating with cross-functional teams to deliver high-quality software solutions on time and within budget. Committed to continuous learning and professional growth, with a passion for building efficient and scalable applications.

---

## Experience

### Senior Software Developer

**Tech Innovations Inc., South Davidmouth**

*January 2020 - Present*

- Led the development of a **Real-time Chat System** that improved user engagement by 30% through enhanced communication features.
- Implemented CI/CD pipelines using **Jenkins** that reduced deployment times by 40%.
- Worked extensively with **Vue.js** and **Docker**, resulting in a 25% increase in application performance and a more streamlined development process.
- Collaborated with data scientists to create a **Machine Learning Pipeline**, which automated data processing tasks and improved prediction accuracy by 15%.

### Software Developer

**Creative Solutions Ltd., South Davidmouth**

*June 2018 - December 2019*

- Developed web applications using **Angular** and **JavaScript**, achieving a user

satisfaction score of 95% in client feedback surveys. - Assisted in migrating legacy applications to modern frameworks, improving system efficiency and maintainability. - Engaged in database management with **MySQL**, optimizing queries to enhance data retrieval speeds by up to 50%.

---

## Skills

- **Machine Learning:** Advanced
  - **Vue.js:** Advanced
  - **Jenkins:** Expert
  - **Angular:** Intermediate
  - **JavaScript:** Intermediate
  - **C++:** Intermediate
  - **Docker:** Intermediate
  - **MySQL:** Intermediate
  - **Rust:** Beginner
  - **Django:** Beginner
  - **Java:** Beginner
- 

## Projects

### Real-time Chat System

- Developed a scalable chat application allowing real-time communication among users, utilizing **Vue.js** for the frontend and **Jenkins** for deployment automation.

### Machine Learning Pipeline

- Created a robust pipeline that processes large datasets and implements predictive algorithms, enhancing the accuracy of analyses and decision-making processes for stakeholders.

---

## Education

**Bachelor of Science in Computer Science**  
**South Davidmouth University**

*Graduated: May 2018*

- Relevant Coursework: Data Structures, Algorithms, Machine Learning, Web Development

---

## Certifications

- **Scrum Master Certification**

Certified in effective Agile project management and team collaboration techniques, enhancing project delivery timelines and quality standards.

---

## Additional Information

- Passionate about open-source contributions and actively participating in local coding meetups.
  - Enjoys exploring new technologies and frameworks, particularly in the realms of machine learning and web development.
  - Committed to mentoring junior developers and sharing knowledge within the programming community.
-
