

# Barbara Carter

---

**Email:** austinanthony@example.org

**Location:** East Garrettside

---

## Summary

Driven and detail-oriented software engineer with over 5 years of experience in developing scalable applications and services. Proficient in a diverse set of technologies including AWS, Kubernetes, and Rust, with a strong focus on leveraging machine learning to enhance user experiences. Passionate about building efficient microservices architectures and improving application performance through innovative solutions.

---

## Experience

### Software Engineer

**Tech Innovations Inc.** - East Garrettside

*March 2020 - Present*

- Developed and maintained an **E-commerce Platform** that processes over 10,000 transactions daily, utilizing **AWS** for cloud services and **Kubernetes** for container orchestration.
- Spearheaded the design and implementation of a **Microservices Architecture**, leading to a 30% reduction in server response times and improved scalability.
- Collaborated with cross-functional teams to integrate machine learning algorithms, enhancing product recommendations by 25%.
- Conducted regular code reviews, mentoring junior developers in **JavaScript** and **Rust**, fostering a culture of continuous improvement.

## Junior Developer

**Creative Solutions Ltd.** - East Garrettside

*January 2018 - February 2020*

- Assisted in the development of a **Content Management System** that supports multiple client websites, improving content delivery speed by 40%.
  - Worked with **PostgreSQL** and **MySQL** databases to optimize data retrieval processes, resulting in a 20% increase in application performance.
  - Implemented CI/CD pipelines using **Jenkins**, streamlining the deployment process and reducing release time by 50%.
- 

## Skills

- **Kubernetes** (Expert)
  - **AWS** (Advanced)
  - **Jenkins** (Advanced)
  - **Rust** (Advanced)
  - **Machine Learning** (Intermediate)
  - **MongoDB** (Intermediate)
  - **Vue.js** (Intermediate)
  - **JavaScript** (Intermediate)
  - **PostgreSQL** (Intermediate)
  - **MySQL** (Intermediate)
  - **Java** (Intermediate)
  - **Microservices** (Beginner)
- 

## Projects

### E-commerce Platform

- **Role:** Lead Developer
- **Description:** Designed and implemented a robust e-commerce platform that supports high traffic and real-time transactions. Integrated payment gateways and enhanced user experience through personalized recommendations powered by machine learning.

## Microservices Architecture

- **Role:** Architect
- **Description:** Led the transition from a monolithic application to a microservices-based architecture, improving system resilience and scalability. Implemented containerization with **Kubernetes**, resulting in reduced downtime and more efficient resource management.

## Content Management System

- **Role:** Developer
  - **Description:** Contributed to the development of a versatile CMS used by multiple clients. Enhanced user interface using **Vue.js** and optimized backend processes with **PostgreSQL**, significantly improving loading times and user engagement.
- 

## Education

### Bachelor of Science in Computer Science

#### East Garrettside University

*Graduated: May 2017*

- Relevant Coursework: Data Structures, Algorithms, Database Management, Machine Learning.
- 

## Certifications

- AWS Certified Solutions Architect – Associate
  - Certified Kubernetes Administrator (CKA)
  - MongoDB Certified Developer Associate
-

## Personal Interests

- Open-source contribution – Actively participate in projects related to **Kubernetes** and **Rust**.
- Machine Learning – Enthusiastic about exploring new algorithms and their applications in real-world scenarios.
- Community Volunteer – Mentor for local coding bootcamps, helping aspiring developers build their first applications.
