

Hunter Stevens

Email: angelaalexander@example.net

Location: East Charles

Summary

Passionate and results-driven software developer with over 5 years of experience in designing, developing, and deploying scalable applications. Proficient in a wide array of technologies including **Expert Go** and **Docker**, and well-versed in **Advanced Node.js** and **Flask** frameworks. Proven track record of delivering high-quality projects on time and within budget. Adept at collaborating with cross-functional teams and leading projects in a fast-paced environment.

Experience

Senior Software Engineer

Tech Innovations Inc. – East Charles, IL

June 2020 – Present

- Spearheaded the development of a **Real-time Chat System** using **Node.js** and **Redis**, improving user engagement by 40% and significantly reducing latency.
- Led a team to create a **Microservices Architecture**, which decreased deployment time by 30% and improved system reliability.
- Implemented CI/CD pipelines using **Jenkins** and **Docker**, resulting in a 50% increase in deployment efficiency.

Software Developer

Creative Solutions LLC – East Charles, IL

January 2018 – May 2020

- Developed a full-stack **E-commerce Platform** utilizing **React**, **Flask**, and **PostgreSQL**, contributing to a 25% increase in sales within the first quarter of launch.
- Enhanced existing applications by integrating **MongoDB**, leading to a 20% improvement in data retrieval times.
- Collaborated with product owners and stakeholders to refine project requirements, ensuring alignment with business objectives.

Junior Developer

StartUp Hub – East Charles, IL

August 2016 – December 2017

- Assisted in the development of a **Content Management System**, focusing on user experience and functionality, which received positive feedback from over 200 users.
 - Gained proficiency in **C++** and **Go**, contributing to various internal tools that streamlined operations by 15%.
-

Skills

- **Git**: Advanced
- **Redis**: Expert
- **Node.js**: Advanced
- **Flask**: Advanced
- **Docker**: Expert
- **Go**: Expert
- **PostgreSQL**: Intermediate
- **React**: Advanced
- **Jenkins**: Advanced
- **Microservices**: Advanced
- **C++**: Intermediate
- **MongoDB**: Advanced

Projects

- **E-commerce Platform**

Developed a comprehensive online shopping platform that supports thousands of users, with features like secure payment gateways and real-time inventory updates.

- **Real-time Chat System**

Designed and implemented a chat application that supports real-time messaging, utilizing **WebSockets** for seamless communication.

- **Content Management System**

Created a user-friendly CMS that allows users to manage content with ease, leading to a 30% reduction in the time taken to publish new articles.

- **Machine Learning Pipeline**

Developed a machine learning pipeline using **Python** and **Flask** to automate data processing, significantly reducing manual effort and increasing productivity.

Certifications

- **Scrum Master Certification**

Certified in Agile methodologies with a focus on project management and team collaboration.

Education

Bachelor of Science in Computer Science

University of East Charles – East Charles, IL

Graduated: May 2016

Interests

- Open source contributions
- Attending tech meetups and hackathons
- Exploring new programming languages and technologies
