Summary

Innovative and detail-oriented programmer with over 5 years of experience in software development and project management. Proficient in building scalable applications and optimizing existing systems. Highly skilled in **MongoDB**, **Kubernetes**, **Vue.js**, and **Docker**, with a passion for leveraging technology to solve complex problems. Adept at collaborating with cross-functional teams to deliver high-quality software solutions.

Skills

- **MongoDB** (Advanced): Implemented and optimized database solutions for high-traffic applications, resulting in a 30% increase in performance.
 - **Kubernetes** (Advanced): Designed and managed container orchestration systems, improving deployment efficiency by 40%.
 - **Vue.js** (Advanced): Developed dynamic user interfaces for multiple projects, enhancing user engagement by 25%.
 - **Docker** (Advanced): Streamlined development and deployment processes using containerization, reducing setup time by 50%.
 - **JavaScript** (Intermediate): Contributed to various front-end applications, improving load times and user experience.
 - **Git** (Intermediate): Collaborated on team projects using version control, ensuring code integrity and facilitating seamless integration.
-

Experience

Software Engineer

Tech Solutions Inc. — Deborahville, CA

June 2020 - Present

- Led the development of a **Content Management System** that allowed non-technical users to create and manage website content, increasing client satisfaction by 35%.
- Managed a team of 4 developers in the creation of a **Machine Learning Pipeline**, which automated data processing and reduced data analysis time by 50%.
- Enhanced application performance by optimizing backend services using **MongoDB** and **Kubernetes**, achieving a 20% reduction in server response time.

Junior Developer

Innovatech Ltd. — Deborahville, CA

January 2018 - May 2020

- Assisted in the development of client websites using **Vue.js**, contributing to projects that generated a 15% increase in client revenue through improved user engagement.
- Improved application deployment processes by implementing **Docker**, which facilitated consistent environments across development and production stages.
- Collaborated with cross-functional teams to troubleshoot and resolve software issues, maintaining a bug resolution rate of 90%.

Projects

Content Management System

- Developed a robust CMS that empowers clients to easily manage their websites.

- Implemented user-friendly interfaces with **Vue.js**, enhancing overall user experience.

Machine Learning Pipeline

- Designed a scalable pipeline for machine learning models that allowed for real-time data processing.
 - Utilized **Kubernetes** for orchestration, resulting in a 40% increase in processing efficiency.
-

Certifications

- **AWS Certified Solutions Architect** — Amazon Web Services
 - **Microsoft Azure Developer** — Microsoft
 - **Scrum Master Certification** — Scrum Alliance
-

Education

Bachelor of Science in Computer Science

University of Deborahville — Deborahville, CA

Graduated: May 2017

- GPA: 3.8/4.0
 - Relevant Coursework: Data Structures, Software Engineering, Database Management
