---

## Summary

---

Highly skilled programmer with **4 years of experience** in software development, specializing in building scalable applications and microservices architectures. Proficient in mentoring and team leadership, with a strong ability to solve complex problems using Agile methodologies.

---

## Education

---

### PhD in Artificial Intelligence

Stanford University

*Rank: #2, GPA: 3.95*

---

## Skills

---

- **Go:** Intermediate (3 years)
  - **Redis:** Beginner (1 year)
  - **Jenkins:** Intermediate (2 years)
  - **AWS:** Advanced (4 years)
-

## Soft Skills

---

- Mentoring
  - Problem Solving
  - Agile Methodology
  - Team Leadership
- 

## Languages

---

- English (C1)
  - Polish (Native)
  - French (B2)
- 

## Experience

---

### Software Engineer

#### E-commerce Platform

**Company Size:** Enterprise

**Duration:** 2 years

- Developed and maintained backend services using **Go** for an e-commerce platform, ensuring high availability and performance.
- Implemented **Microservices Architecture** to enhance scalability and maintainability of the application.
- Collaborated with cross-functional teams to integrate **API Gateway** for seamless communication between services.

### DevOps Engineer

#### Mobile App

**Company Size:** Startup

**Duration:** 1.5 years

- Managed CI/CD pipelines using **Jenkins** to streamline deployment processes for a mobile application.

- Utilized **AWS** services to enhance cloud infrastructure, improving application performance and reducing downtime.
- Assisted in the design and implementation of system monitoring solutions to ensure application reliability.

## Backend Developer

### FinTech

**Company Size:** Startup

**Duration:** 6 months

- Contributed to the development of secure APIs for financial transactions, focusing on performance and security best practices.
- Worked with **Redis** for caching strategies to optimize data retrieval times for high-traffic applications.
- Engaged in Agile sprints, collaborating with product owners to deliver features based on user feedback.
