## Summary

Dynamic and results-driven programmer with over 6 years of experience in developing robust applications and solutions using a diverse range of technologies. Proficient in both backend and frontend development, with a strong focus on delivering high-quality software that meets client needs. Passionate about leveraging cloud technologies and container orchestration to enhance scalability and performance.

---

## Skills

- **TypeScript:** Expert
  - **Rust:** Expert
  - **Kubernetes:** Advanced
  - **Vue.js:** Advanced
  - **Flask:** Intermediate
  - **Docker:** Intermediate
  - **Jenkins:** Intermediate
- 

## Experience

### Senior Full-Stack Developer

**Tech Innovations Inc., South Karaport**

*March 2020 - Present*

- Led the development of a **Data Analytics Dashboard** that improved data visualization for clients, resulting in a 30% increase in user engagement. - Spearheaded the integration of **Kubernetes** for application deployment, enhancing scalability and reducing downtime by 15%. - Collaborated with cross-functional teams to implement a **Payment Processing System** using **Flask** and **Docker**, ensuring PCI compliance and reducing transaction times by 20%.

## Software Engineer

### E-Commerce Solutions Ltd., South Karaport

*January 2018 - February 2020*

- Developed an **E-commerce Platform** from the ground up using **Vue.js** and **TypeScript**, leading to a 50% increase in sales within the first six months of launch. - Improved CI/CD pipelines with **Jenkins**, reducing deployment times by 40% and minimizing production errors. - Engaged in regular code reviews and mentoring junior developers, contributing to a more robust and collaborative team environment.

## Junior Developer

### StartUp Hub, South Karaport

*June 2016 - December 2017*

- Assisted in building a **Mobile App** that garnered over 10,000 downloads within its first month. - Gained hands-on experience with **Docker** and **Flask**, contributing to backend services that supported mobile and web applications. - Participated in agile development processes, enhancing team productivity and project turnaround times.

---

## Projects

- **Mobile App**: Designed and developed a cross-platform mobile application that streamlined user interactions, achieving a 4.8 rating on the App Store.
- **Payment Processing System**: Engineered a secure payment processing solution that supports multiple payment methods, with a focus on security and performance.
- **Data Analytics Dashboard**: Created an interactive dashboard for visualizing large datasets, enabling clients to make informed decisions based on real-time data.

- **E-commerce Platform:** Built a comprehensive e-commerce solution featuring user authentication, product management, and payment integration.
- 

## Education

**Bachelor of Science in Computer Science**

**South Karaport University**

*Graduated: May 2016*

---

## Certifications

- **Microsoft Azure Developer**
  - **AWS Certified Solutions Architect**
- 

## Additional Information

- Actively participating in local tech meetups and hackathons to stay updated with the latest trends in software development.
  - Contributed articles to online tech platforms discussing best practices in container orchestration and cloud solutions.
-
