Location: Diazmouth

Hourly Rate: \$112/hr

Total Experience: 14 years

Summary

Experienced programmer with 14 years in the software development field, specializing in Rust, React, and AWS technologies. Strong problem-solving skills and strategic planning abilities, complemented by a solid understanding of Agile methodology.

Education

PhD in Artificial Intelligence

University of Oxford

Rank: #5 | GPA: 3.42

Skills

- **Rust:** Advanced (4 years)
 - **React:** Expert (11 years)
 - **AWS:** Expert (8 years)
-

Soft Skills

- Problem Solving
 - Strategic Planning
 - Agile Methodology
-

Languages

- English (C2)
 - German (B1)
-

Certifications

- **Google Cloud Professional**
Score: 715 | Expiration: 2028-05-11
 - **Certified Kubernetes Administrator**
Score: 817 | Expiration: 2028-05-14
-

Experience

Senior Software Engineer

FinTech Startup

Company Size: 50-100 Employees

Duration: 2019 - Present

- Developed a **Machine Learning Pipeline** to enhance predictive analytics for financial forecasting, improving accuracy by 30%.
- Led the design and implementation of a **Microservices Architecture** that increased system scalability and reduced deployment times by 40%.
- Collaborated with cross-functional teams to build a **Data Analytics Dashboard** that provided real-time insights into user behavior.

Software Engineer

E-commerce Enterprise

Company Size: 1000+ Employees

Duration: 2015 - 2019

- Implemented a robust **React** frontend for a high-traffic e-commerce platform, optimizing load times and enhancing user experience.
- Integrated various AWS services to improve application performance and reliability, resulting in a 25% reduction in downtime.
- Participated in Agile sprint planning and retrospectives, facilitating continuous improvement and team collaboration.

Junior Developer

Healthcare Startup

Company Size: 10-50 Employees

Duration: 2010 - 2015

- Assisted in the development of web applications using **Rust** and **React**, focusing on performance and security.
 - Contributed to the creation of a cloud-based patient management system, ensuring compliance with healthcare regulations.
 - Engaged in debugging and troubleshooting activities, enhancing application stability and user satisfaction.
-
