Experience

Software Engineer

E-commerce Solutions (Enterprise)

2019 - Present

- Developed and maintained an **E-commerce Platform** using Go and Spring Boot, enhancing user experience and transaction efficiency. - Collaborated with cross-functional teams to implement features driven by customer feedback, resulting in a 20% increase in user engagement. - Mentored junior developers, facilitating knowledge sharing and improving team productivity.

Full Stack Developer

Tech Innovations (Startup)

2017 - 2019

- Engineered a **Real-time Chat System** leveraging JavaScript and Next.js, optimizing real-time communication for users. - Implemented Docker and Jenkins for

CI/CD pipelines, reducing deployment times by 30%. - Conducted workshops on Python and Git best practices, improving team skill set and project delivery timelines.

Data Scientist

Creative Solutions (Enterprise)

2016 - 2017

- Contributed to the development of a **Content Management System** utilizing PyTorch for data processing tasks.
- Analyzed user data and created predictive models, increasing content relevance and user satisfaction.
- Facilitated public speaking sessions to present findings and strategies to stakeholders, enhancing project visibility and support.
