Phone: 826.590.1362

Location: West Courtney

Hourly Rate: \$104/hr

Total Experience: 13 years

Summary

Experienced programmer with 13 years in software development, specializing in full-stack development and machine learning solutions. Proven ability in mentoring teams and enhancing cross-functional communication. Strong problem-solving skills with a focus on conflict resolution and agile methodologies.

Education

B.Sc. in Computer Science

Warsaw University of Technology

Rank: #50, GPA: 3.97

Skills

- **Spring Boot:** Expert (13 yrs)
- **Java:** Intermediate (3 yrs)
- **C++:** Expert (8 yrs)
- **Angular:** Expert (7 yrs)
- **JavaScript:** Expert (9 yrs)
- **MongoDB:** Expert (12 yrs)
- **Machine Learning:** Expert (8 yrs)

- **PyTorch:** Expert (9 yrs)
-

Soft Skills

- Mentoring
 - Cross-functional Communication
 - Problem Solving
 - Conflict Resolution
 - Scrum
-

Languages

- **English:** C1
 - **German:** B2
 - **Polish:** Native
-

Certifications

AWS Certified Solutions Architect

Score: 802, Expiration: 2027-06-04

Experience

Senior Software Engineer

E-commerce Platform - Startup

Jan 2020 - Present

- Designed and implemented a scalable e-commerce platform using Spring Boot and Angular, enhancing user experience and reducing page load times by 30%. - Led a team of 5 developers in creating a Machine Learning Pipeline for personalized product recommendations, resulting in a 25% increase in sales conversion rates. - Collaborated with cross-functional teams to integrate a Payment Processing System, ensuring compliance with industry security standards.

Full Stack Developer

Content Management System - Enterprise

Jun 2015 - Dec 2019

- Developed features for a high-traffic content management system using Java, JavaScript, and MongoDB, improving content delivery efficiency by 40%.
- Mentored junior developers, fostering a culture of knowledge sharing and professional growth within the team.
- Implemented Agile methodologies, leading to a 20% increase in project delivery speed.

Software Developer

Machine Learning Pipeline - Startup

Apr 2012 - May 2015

- Contributed to the development of a machine learning pipeline utilizing PyTorch, enabling real-time data processing and analytics for clients.
- Worked closely with data scientists to integrate machine learning models into production environments, enhancing data-driven decision-making capabilities.
- Engaged in problem-solving sessions to address and resolve technical challenges, resulting in improved system performance.
