Experience

Senior Software Engineer

Tech Innovations (FinTech, Enterprise)

June 2015 - Present

- Led the development of an **API Gateway** that streamlined communication between microservices, improving system efficiency by 30%. - Designed and implemented a **Web Application** that facilitated real-time financial transactions for clients, enhancing user experience and increasing customer satisfaction. - Mentored junior developers, providing guidance on best practices and technology trends.

Software Developer

Creative Solutions (E-commerce, Startup)

January 2010 - May 2015

- Developed a robust **E-commerce Platform** that supported over 100,000

transactions per month, contributing to a 40% revenue increase. - Collaborated with cross-functional teams to create a **Real-time Chat System**, enabling immediate customer support and engagement. - Utilized Jenkins for continuous integration and deployment, reducing deployment times by 50%.

Junior Programmer

Startup Hub (Tech, Startup)

April 2008 - December 2009

- Assisted in the development of web applications, focusing on user interface design and functionality. - Gained hands-on experience with Git for version control, ensuring smooth collaboration within the development team. - Contributed to various projects, enhancing skills in software development lifecycle and agile methodologies.
