Location: South Raymondton

Hourly Rate: \$113/hr

Total Experience: 3 years

Education

M.Sc. in Software Engineering

Massachusetts Institute of Technology (MIT)

Rank: #1

GPA: 3.33

Skills

- **MongoDB:** Beginner (1 year)
 - **PyTorch:** Beginner (1 year)
 - **Git:** Intermediate (3 years)
-

Soft Skills

- Cross-functional Communication
 - Strategic Planning
 - Public Speaking
 - Problem Solving
 - Team Leadership
-

Languages

- **English:** C1
 - **German:** B2
 - **Spanish:** B1
-

Certifications

(No certifications listed)

Summary

Dynamic programmer with 3 years of experience in software engineering, specializing in mobile app development and payment processing systems. Proven soft skills in cross-functional communication, strategic planning, public speaking, problem-solving, and team leadership.

Experience

Software Developer

Tech Innovations (FinTech, Startup)

January 2021 - Present

- Developed and maintained a **Mobile App** that allows users to easily manage their finances, leveraging Git for version control and collaboration within a small team.
- Implemented user-friendly features that increased user engagement by 30% within the first quarter of release.
- Collaborated with cross-functional teams to ensure alignment on project goals and timelines.

Junior Software Engineer

Secure Payments Corp (Payment Processing, Enterprise)

July 2019 - December 2020

- Assisted in the development of a **Payment Processing System** that streamlined

transaction processes for over 10,000 users daily. - Gained experience with MongoDB to handle large datasets efficiently, contributing to improved system performance and reliability. - Participated in strategic planning sessions to enhance product features based on user feedback and market research.

Intern Developer

Creative Solutions (Technology, Startup)

June 2018 - June 2019

- Contributed to various projects including web applications, focusing on backend development. - Gained foundational experience in PyTorch while assisting in developing machine learning models for predictive analytics. - Engaged in team leadership activities, helping to mentor new interns and foster a collaborative work environment.
