Location: West Brettborough

Summary

Dedicated and passionate software developer with over 5 years of experience in building scalable web applications and mobile solutions. Adept at utilizing a range of technologies to create efficient and innovative solutions. Proven track record of delivering high-quality projects on time and collaborating effectively with cross-functional teams. Committed to continuous learning and professional growth.

Experience

Senior Software Developer

Tech Innovators Inc., West Brettborough

January 2020 – Present

- Led the development of a **Machine Learning Pipeline** that reduced data processing time by 30%, utilizing **Python** and **Flask**.
- Collaborated with a team of developers to create an **E-commerce Platform** that improved customer conversion rates by 25% through streamlined UI/UX.
- Enhanced database performance by 40% through optimization of **PostgreSQL** queries and schema design.

Software Engineer

Creative Solutions Ltd., West Brettonborough

June 2017 – December 2019

- Designed and implemented a **Content Management System** that enabled users to manage content with a simple drag-and-drop interface using **Vue.js**.
 - Developed a cross-platform **Mobile App** that reached over 10,000 downloads in the first month of launch, receiving a 4.8-star rating on app stores.
 - Contributed to the backend architecture using **C++** and **PostgreSQL**, ensuring robust data handling and processing.
-

Skills

- **C++** (Intermediate): Developed various modules in C++ for high-performance applications.
 - **Flask** (Expert): Designed RESTful APIs and microservices for web applications.
 - **PostgreSQL** (Advanced): Skilled in database design, performance tuning, and complex querying.
 - **Vue.js** (Advanced): Proficient in creating responsive user interfaces and managing state effectively.
 - **Java** (Intermediate): Contributed to backend services and microservices architecture.
-

Projects

- **Machine Learning Pipeline**
 - Developed a scalable pipeline for data processing and model training that improved prediction accuracy by 15%.
 - Integrated with cloud services, enhancing data storage and retrieval efficiency.
- **Mobile App**

- Created a user-friendly mobile application for local businesses, increasing their sales by 20% through improved customer engagement.
 - Implemented push notifications and in-app purchase features.
 - **Content Management System**
 - Built a custom CMS for a client that streamlined their content publication process, reducing time spent on content updates by 50%.
 - **E-commerce Platform**
 - Led a team to create an e-commerce platform that supports multiple payment gateways and has processed over \$1 million in sales in its first year.
-

Education

Bachelor of Science in Computer Science

University of West Brettonborough

Graduated: May 2017

- Relevant Coursework: Data Structures, Algorithms, Database Systems, Web Development
-

Certifications

- **Google Cloud Professional**
Achieved certification demonstrating proficiency in cloud architecture and Google Cloud Platform services.
 - **Microsoft Azure Developer**
Certified in developing applications and services on Microsoft Azure, focusing on cloud-based solutions.
-

Additional Information

- **Languages:** Fluent in English and Spanish
- **Interests:** Open-source contributions, Hackathons, and Data Science initiatives.
