**Email:** bmorgan@example.com

**Phone:** +1-374-714-0805

**Location:** Wileyside

**Hourly Rate:** \$142/hr

**Total Experience:** 6 years

---

## Education

---

**M.Sc. in Software Engineering**

University of California, Berkeley

*Rank: #4, GPA: 3.59*

---

## Skills

---

- **Spring Boot:** Advanced (5 years)
  - **Docker:** Advanced (4 years)
  - **Git:** Beginner (1 year)
  - **AWS:** Advanced (4 years)
- 

## Soft Skills

---

- Team Leadership
  - Strategic Planning
  - Mentoring
  - Agile Methodology
-

## Languages

---

- English (Native)
  - Polish (C2)
  - German (B1)
- 

## Certifications

---

- **Scrum Master Certification**  
Score: 936, Exp: 2027-05-07
  - **AWS Certified Solutions Architect**  
Score: 832, Exp: 2027-09-14
  - **Certified Kubernetes Administrator**  
Score: 900, Exp: 2027-02-21
- 

## Summary

---

Accomplished programmer with 6 years of experience in software development and strong soft skills including team leadership, strategic planning, mentoring, and agile methodology.

---

## Experience

---

### Software Engineer

#### FinTech Startup | 50 Employees

*January 2020 - Present*

- Developed a **Mobile App** that streamlined user interactions and increased customer engagement by 40%.
- Designed and implemented an **API Gateway** to facilitate secure communication between multiple services, enhancing system performance and scalability.

- Collaborated with cross-functional teams to create a **Payment Processing System**, improving transaction efficiency and reducing chargebacks by 15%.

## DevOps Engineer

### E-commerce Enterprise | 500 Employees

*June 2018 - December 2019*

- Managed container orchestration with **Docker** to support microservices architecture, resulting in a 30% reduction in deployment times.
- Integrated AWS services to optimize cost and performance, leading to a 25% decrease in operational expenses.
- Played a crucial role in developing a **Machine Learning Pipeline** for customer data analysis, which increased personalized marketing effectiveness by 20%.

## Junior Software Developer

### Healthcare Startup | 30 Employees

*June 2017 - May 2018*

- Assisted in the development of web applications using Spring Boot, enhancing the platform's functionality and user experience.
  - Engaged in version control using **Git**, contributing to team projects and improving collaborative workflows.
-
