Hourly Rate: \$51/hr

Total Experience: 9 years

Education

B.Sc. in Computer Science

University of California, Berkeley

Rank: #4, GPA: 3.72

Summary

A highly skilled programmer with 9 years of experience in software development and data science. Possesses strong soft skills including public speaking, problem solving, team leadership, and expertise in Agile methodology. Proven ability to deliver high-quality solutions in challenging environments.

Skills

- **Angular:** Advanced (5 years)
 - **PostgreSQL:** Beginner (1 year)
 - **Data Science:** Expert (7 years)
 - **PyTorch:** Advanced (5 years)
 - **AWS:** Intermediate (2 years)
 - **Kubernetes:** Intermediate (2 years)
-

Soft Skills

- Public Speaking
 - Problem Solving
 - Team Leadership
 - Agile Methodology
-

Languages

- English: C1
-

Certifications

- **AWS Certified Solutions Architect**
Score: 976, Expiration: 2027-06-19
-

Experience

Senior Software Engineer

Tech Innovations Inc.

Industry: FinTech | *Size:* Startup

Duration: 2018 - Present

- Developed a **Data Analytics Dashboard** that streamlined data visualization processes, enhancing decision-making capabilities for clients.
- Led the implementation of a **Machine Learning Pipeline** to automate data processing, resulting in a 30% increase in efficiency.
- Collaborated in an Agile environment to create a **Real-time Chat System**, improving customer support response times.

Software Developer

Global Solutions LLC

Industry: E-commerce | *Size:* Enterprise

Duration: 2015 - 2018

- Played a key role in the development of an **API Gateway** that facilitated seamless integration between various microservices within the platform.
- Contributed to the design and deployment of a **Microservices Architecture**, which improved system scalability and maintainability.
- Participated in cross-functional teams to enhance software performance and user experience.

Data Scientist

Innovative Tech Corp.

Industry: HealthTech | *Size:* Startup

Duration: 2013 - 2015

- Utilized **Data Science** techniques to analyze patient data, uncovering insights that led to improved healthcare outcomes.
 - Developed predictive models using **PyTorch**, enhancing the ability to forecast trends in patient health.
 - Engaged in public speaking to share findings and methodologies with stakeholders, fostering a data-driven culture.
-
