Phone: +1-720-654-1311x2690

Location: Waltersville

Hourly Rate: \$123/hr

Total Experience: 8 years

Summary

Experienced programmer with 8 years of expertise in software development, specializing in data science and microservices architecture. Proficient in Agile methodology, problem solving, and public speaking. Proven ability to deliver high-quality software solutions and lead projects in dynamic environments.

Education

M.Sc. in Software Engineering

Georgia Institute of Technology

Rank: #15, GPA: 3.62

Skills

- **React:** Intermediate (3 years)
 - **TypeScript:** Expert (7 years)
 - **JavaScript:** Intermediate (2 years)
 - **Redis:** Expert (8 years)
 - **Data Science:** Advanced (5 years)
-

Soft Skills

- Agile Methodology
 - Problem Solving
 - Public Speaking
-

Languages

- English: C1
-

Certifications

- **Microsoft Azure Developer**
Score: 805, Exp: 2026-07-04
 - **AWS Certified Solutions Architect**
Score: 845, Exp: 2026-04-01
-

Experience

Senior Software Engineer

Tech Innovations Inc. (FinTech, Enterprise)

January 2020 - Present

- Developed a **Data Analytics Dashboard** that provides real-time insights into financial transactions, utilizing TypeScript and React. - Implemented a **Microservices Architecture** to enhance the scalability of the application, significantly improving system performance and responsiveness. - Collaborated with cross-functional teams to deliver software solutions that meet client needs while adhering to Agile methodologies.

Software Developer

Chat Solutions LLC (Communication, Startup)

June 2017 - December 2019

- Designed and built a **Real-time Chat System** that supports thousands of concurrent users, leveraging Redis for data storage and retrieval.
- Contributed to the development of a comprehensive **Web Application** that integrates various communication tools and APIs.
- Actively participated in code reviews and mentoring junior developers, fostering a culture of continuous improvement.

Junior Developer

Data Science Corp (Analytics, Startup)

August 2015 - May 2017

- Assisted in developing data-driven applications for clients, focusing on data gathering and analysis using advanced data science techniques.
- Collaborated with senior developers to optimize existing applications and improve user interfaces, utilizing JavaScript and React.
- Engaged in team meetings to discuss project timelines and deliverables, enhancing communication and project efficiency.
