**Location:** Edwardfurt

---

## Summary

Passionate and driven software developer with over 5 years of experience in building scalable web applications and microservices. Adept at leveraging data science to derive actionable insights and improve system performance. Proven ability to collaborate with cross-functional teams to deliver high-quality software solutions. Seeking to leverage my skills in a challenging role that fosters innovation and creativity.

---

## Experience

### Software Developer

**Tech Innovators Inc., Edwardfurt**

*June 2020 - Present*

- Designed and implemented a **Microservices Architecture** for a large-scale e-commerce platform, reducing system downtime by 30%.
- Developed a **Web Application** using Django and FastAPI, resulting in a 25% increase in user engagement through enhanced user experience.
- Collaborated with data scientists to integrate machine learning models, improving recommendation accuracy by 40%.

## Junior Developer

### Creative Solutions Ltd., Edwardfurt

January 2018 - May 2020

- Contributed to the development of a **Mobile App** that reached over 10,000 downloads within the first month of launch.
  - Assisted in migrating legacy systems to a microservices architecture, which improved system efficiency by 20%.
  - Implemented version control using Git, enhancing team collaboration and code quality.
- 

## Skills

- **Django:** Intermediate – Proficient in developing robust web applications with Django, focusing on RESTful API development.
  - **Git:** Intermediate – Experienced in version control workflows and collaborative development using Git.
  - **Data Science:** Expert – Extensive experience in data analysis, machine learning, and statistical modeling to inform business decisions.
  - **FastAPI:** Intermediate – Skilled in building fast and efficient APIs, enhancing performance in web applications.
  - **Microservices:** Intermediate – Knowledgeable in designing and implementing microservices architectures for scalable applications.
  - **MySQL:** Advanced – Proficient in database design, optimization, and management for large-scale applications.
- 

## Projects

- **Microservices Architecture**  
Designed and implemented a microservices architecture for an e-commerce platform, facilitating independent deployment and scaling of services.
- **Mobile App**  
Developed a cross-platform mobile application that enhances user engagement, leveraging data analytics for continuous improvement.

- **Web Application**

Led the development of a web application using Django and FastAPI, which improved user interaction and reduced loading times by 50%.

---

## Certifications

- **Microsoft Azure Developer**

Gained expertise in cloud application development and deployment, enhancing skills in Azure services.

- **Certified Kubernetes Administrator**

Achieved certification to effectively manage containerized applications using Kubernetes, improving deployment processes.

---

## Education

### **Bachelor of Science in Computer Science**

#### **State University of Edwardfurt**

*Graduated: May 2017*

- **Relevant Coursework:** Data Structures, Database Management, Software Engineering, Machine Learning
- 

## Additional Information

- **Languages:** Fluent in English and Spanish.
- **Interests:** Open source contributions, attending tech meetups, and exploring advancements in AI and machine learning.
