Location: East Miguelchester

Summary

Passionate and results-driven programmer with over 5 years of experience in developing scalable applications and managing cloud infrastructure. Adept in leveraging advanced AWS services to optimize performance and reduce costs. Proven ability to work collaboratively in DevOps environments, enhancing delivery pipelines and automating workflows. Eager to tackle complex challenges and deliver innovative solutions.

Experience

Software Engineer

Tech Solutions Inc., East Miguelchester

January 2021 - Present

- Designed and implemented an **E-commerce Platform** that successfully handled over 10,000 transactions per day, increasing revenue by 30% within the first quarter of launch.
- Spearheaded the development of a **Machine Learning Pipeline** utilizing Flask and Redis, which improved data processing speed by 40%.
- Collaborated with cross-functional teams to transition legacy systems to a **Microservices Architecture**, enhancing system resilience and reducing downtime by 25%.

DevOps Engineer

Innovative Tech Corp, East Miguelchester

June 2018 - December 2020

- Managed AWS infrastructure, achieving a 20% reduction in operational costs through the implementation of autoscaling and cloud optimization strategies.

Successfully led a team in deploying containerized applications using Docker, resulting in a 50% decrease in deployment time. - Played a key role in the CI/CD pipeline development, which improved deployment frequency by 60%.

Skills

- **AWS:** Advanced - Proficient in EC2, S3, Lambda, and CloudFormation.
 - **DevOps:** Intermediate - Experience with CI/CD tools like Jenkins and GitLab CI.
 - **Flask:** Intermediate - Developed RESTful APIs and microservices.
 - **Vue.js:** Intermediate - Built interactive user interfaces for web applications.
 - **Redis:** Intermediate - Utilized for caching in high-performance applications.
-

Projects

- **Machine Learning Pipeline**

Developed a robust pipeline that integrates data collection, preprocessing, and model training, resulting in improved model performance metrics by 15%.

- **E-commerce Platform**

Led the architecture and development of a full-featured e-commerce platform, enhancing user experience and achieving a 4.8-star rating on user feedback.

- **Microservices Architecture**

Transitioned a monolithic application to a microservices-based architecture, which improved scalability and reduced the time to market for new features by 40%.

Certifications

- **Certified Kubernetes Administrator**
 - **Docker Certified Associate**
-

Education

Bachelor of Science in Computer Science

East Miguelchester University, East Miguelchester

Graduated: May 2018

- Relevant Coursework: Cloud Computing, Software Engineering, Data Structures, and Algorithms.
