## Summary

Detail-oriented and innovative programmer with over 5 years of experience in developing scalable applications and data-driven solutions. Proficient in modern programming languages and tools, with a strong focus on delivering efficient code and optimizing performance. Passionate about leveraging technology to solve complex problems and enhance user experiences.

---

## Experience

### Software Engineer

#### Tech Innovations Inc., South Kristina

*January 2021 - Present*

- Developed and maintained an **E-commerce Platform** that increased sales by 30% within the first quarter post-launch. - Collaborated with cross-functional teams to implement a **Data Analytics Dashboard** using **PostgreSQL** and **TypeScript**, providing real-time insights that improved decision-making. - Spearheaded the integration of **Docker** for containerization, resulting in a 25% reduction in deployment time.

### Full Stack Developer

#### Creative Solutions Ltd., South Kristina

*June 2018 - December 2020*

- Designed and implemented a **Real-time Chat System** using **Rust** and **JavaScript**, enhancing user engagement by 40%. - Played a key role in the development of an

**API Gateway**, streamlining communication between microservices, which improved system reliability. - Conducted code reviews and implemented best practices in **DevOps**, leading to a 15% decrease in production issues.

---

## Skills

- **PostgreSQL**: Advanced
  - **Rust**: Advanced
  - **TypeScript**: Advanced
  - **Java**: Advanced
  - **Docker**: Intermediate
  - **DevOps**: Intermediate
  - **Jenkins**: Beginner
  - **JavaScript**: Beginner
- 

## Projects

- **Data Analytics Dashboard**: Developed a comprehensive dashboard that visualizes key performance indicators, helping stakeholders make data-driven decisions.
  - **E-commerce Platform**: Led the development of a robust online shopping platform, integrating payment gateways and enhancing user experience through responsive design.
  - **Real-time Chat System**: Engineered a high-performance chat application leveraging WebSocket technology, ensuring low-latency communication for users.
  - **API Gateway**: Created an efficient API Gateway that routes requests to various microservices, enhancing security and performance.
-

# Education

## Bachelor of Science in Computer Science

### University of South Kristina

*Graduated: May 2018*

- Relevant Coursework: Data Structures, Web Development, Databases, Software Engineering

---

## Certifications

- Certified Kubernetes Administrator (CKA) - 2022
  - AWS Certified Solutions Architect - Associate - 2021
- 

## Additional Information

- **Languages:** English (Fluent), Spanish (Conversational)
- **Interests:** Open-source contributions, tech meetups, and hackathons.
