**Location:** Tracymouth

---

## Summary

Detail-oriented and innovative programmer with a passion for developing scalable web applications and data-driven solutions. With expertise in **Vue.js** and **Data Science**, I thrive in fast-paced environments and am eager to enhance my skills in **Flask** and **Rust**. I pride myself on my ability to collaborate with cross-functional teams to deliver projects that exceed client expectations.

---

## Experience

### Software Developer

**Tech Innovations Inc.** - Tracymouth, CA

*January 2021 - Present*

- Developed and maintained a **Mobile App** that serves over 10,000 active users, leveraging **Vue.js** for a responsive user interface.
- Spearheaded the implementation of a **Real-time Chat System** using **PostgreSQL**, improving user engagement by 35%.
- Collaborated in a team of 5 to design a **Microservices Architecture** for a large-scale application, enhancing system modularity and reducing deployment time by 50%.

## **Junior Developer**

**Data Solutions Ltd.** - Tracymouth, CA

*June 2019 - December 2020*

- Assisted in data analysis and visualization projects, utilizing **Data Science** techniques to derive insights that increased operational efficiency by 20%.
  - Gained hands-on experience with **Rust** while contributing to backend services, improving performance and reliability of existing applications.
- 

## **Skills**

- **Vue.js** (Expert)
  - **Data Science** (Expert)
  - **PostgreSQL** (Advanced)
  - **Rust** (Intermediate)
  - **TypeScript** (Intermediate)
  - **Flask** (Beginner)
- 

## **Projects**

### **Mobile App**

- Designed and developed a cross-platform mobile application that integrates with multiple APIs, resulting in a user-friendly product that received a 4.8-star rating on app stores.

### **Real-time Chat System**

- Architected a real-time messaging platform utilizing WebSocket technology, leading to a 50% increase in user retention rates due to enhanced communication features.

### **Microservices Architecture**

- Led the transition of a monolithic application to a microservices architecture, significantly improving deployment speed and scalability, which resulted in a 40% reduction in downtime.

---

## Education

### Bachelor of Science in Computer Science

Tracymouth University - Tracymouth, CA

*Graduated: May 2019*

- Completed coursework in Software Development, Data Structures, and Algorithms.
  - Participated in hackathons and coding competitions, securing a top 3 finish in the statewide coding challenge.
- 

## Certifications

- Certified Data Scientist - Data Science Academy, 2022
  - Full Stack Development Certificate - Tech Skills Institute, 2021
-
