Summary

Dynamic and detail-oriented software developer with over 5 years of experience in building scalable web applications and leading complex projects. Proficient in a range of technologies, with a passion for creating efficient and user-friendly solutions. Strong background in cloud services and machine learning, combined with a proven ability to collaborate effectively within cross-functional teams.

Experience

Software Developer

Tech Innovations Inc. - Port Nicolehaven, CA

January 2021 - Present

- Developed an **E-commerce Platform** using **React** and **MongoDB**, which increased customer engagement by 30% through enhanced user experience and faster load times.
- Led a team of 4 developers in implementing a **Payment Processing System** with **Jenkins** for CI/CD, reducing deployment time by 50%.
- Integrated AWS services to optimize application performance and scalability, resulting in a 20% decrease in operational costs.
- Conducted code reviews and mentored junior developers in **JavaScript** and **Angular** best practices.

Junior Developer

NextGen Solutions - Port Nicolehaven, CA

June 2018 - December 2020

- Collaborated on a variety of client projects, primarily focused on building responsive web applications with **Angular** and **JavaScript**.
 - Gained foundational knowledge in **MySQL** through database management tasks, enhancing data retrieval processes by 15%.
 - Assisted in deploying applications on **AWS**, gaining practical experience in cloud architecture and management.
-

Skills

- **React:** Intermediate
 - **Angular:** Intermediate
 - **Jenkins:** Advanced
 - **AWS:** Intermediate
 - **MySQL:** Beginner
 - **JavaScript:** Intermediate
 - **Machine Learning:** Intermediate
 - **MongoDB:** Advanced
 - **Rust:** Intermediate
-

Projects

E-commerce Platform

- **Role:** Lead Developer
- **Technologies:** React, MongoDB, AWS
- **Description:** Designed and implemented a full-stack e-commerce platform, featuring user authentication, product management, and a secure payment gateway. Improved user retention through a personalized shopping experience.

Payment Processing System

- **Role:** Project Leader
 - **Technologies:** Jenkins, Angular, AWS
 - **Description:** Spearheaded the development of a secure payment processing system that streamlined transactions and reduced fraud. Achieved a 99.9% uptime and facilitated over \$500,000 in transactions in the first quarter post-launch.
-

Education

Bachelor of Science in Computer Science

Port Nicolehaven University - Port Nicolehaven, CA

Graduated: May 2018

- Relevant Coursework: Data Structures, Algorithms, Cloud Computing, Software Engineering
 - Projects: Developed a machine learning model for predictive analytics as part of a capstone project.
-

Certifications

- Microsoft Azure Developer
 - Google Cloud Professional
-
