## Summary

Passionate and dedicated programmer with over 5 years of experience in developing scalable applications and implementing DevOps practices. Proficient in Go and Angular, with a strong focus on delivering high-quality code. Proven ability to lead projects from inception to completion and collaborate effectively with cross-functional teams. Seeking to leverage my expertise in a challenging role that fosters growth and innovation.

## Experience

### Senior Software Engineer

**Tech Innovations Inc.** - North Matthewville, NY

*June 2020 - Present*

- Led the development of a **Real-time Chat System** used by over 10,000 active users, implementing WebSocket for seamless communication and reducing latency by 30%.
- Spearheaded the transition to a **Microservices Architecture**, improving system scalability and maintainability, which resulted in a 25% reduction in deployment times.
- Collaborated with the DevOps team to establish CI/CD pipelines using Docker, enhancing the deployment process and reducing errors by 40%.

### Software Developer

**E-commerce Solutions Ltd.** - North Matthewville, NY

*January 2018 - May 2020*

- Developed a **Payment Processing System** that handles thousands of transactions

daily, ensuring compliance with security standards and achieving a 99.9% uptime. - Worked extensively with **Angular** and **Vue.js** to create a responsive **E-commerce Platform** that increased user engagement by 50% through improved UI/UX. - Participated in code reviews and team workshops to elevate the coding standards, resulting in reduced bug rates and improved team efficiency.

## Skills

- **Go:** Expert
- **Angular:** Advanced
- **DevOps:** Advanced
- **Vue.js:** Intermediate
- **Git:** Intermediate
- **Data Science:** Beginner

## Projects

- **Real-time Chat System:** Designed and implemented a chat application with features like group chats and file sharing, achieving a 30% increase in user satisfaction.
- **Payment Processing System:** Engineered a secure and efficient payment backbone for an e-commerce platform, facilitating transactions worth over \$1M monthly.
- **E-commerce Platform:** Contributed to the full-stack development of a platform that saw a 60% increase in sales within the first year of launch.
- **Microservices Architecture:** Transitioned legacy applications to microservices, improving deployment efficiency and reducing downtime by 40%.

## Certifications

- **Docker Certified Associate (2021)**

## **Education**

**Bachelor of Science in Computer Science**

**University of North Matthewville - North Matthewville, NY**

*Graduated: May 2017*

- Dean's List (2015-2017)
  - Completed a capstone project on "Machine Learning Algorithms for Data Analysis"
