---

## Summary

Passionate and detail-oriented programmer with over 5 years of experience in developing robust web applications and data-driven solutions. Skilled in Python and data science, with a strong foundation in building scalable applications using Go and Git. Proven ability to analyze data and leverage cloud technologies to enhance business processes. Seeking to contribute technical expertise and innovative ideas in a challenging programming role.

---

## Experience

### Software Engineer

*Tech Innovations Inc.* — Michaelchester, UK

*January 2020 - Present*

- Developed a **web application** that improved user engagement by 30%, utilizing **Advanced Python** and **Go** for backend development. - Led a team of 5 in creating a **Data Analytics Dashboard** that streamlined data visualization processes, reducing report generation time by 50%. - Collaborated with cross-functional teams to implement version control practices using **Git**, enhancing project collaboration and code quality.

### Junior Data Scientist

*Data Solutions Ltd.* — Michaelchester, UK

*June 2018 - December 2019*

- Assisted in the development of predictive models that increased forecasting accuracy by 25%, leveraging **Advanced Data Science** techniques. - Engaged in

data cleaning and preprocessing tasks, utilizing Python libraries such as Pandas and NumPy. - Contributed to team efforts in building machine learning algorithms to analyze user behavior, improving product recommendations.

---

## Skills

- **Python:** Advanced
  - **Data Science:** Advanced
  - **Go:** Advanced
  - **Git:** Advanced
  - **Redis:** Beginner
- 

## Projects

### Web Application

- Designed and implemented a full-stack web application for an e-commerce platform, which resulted in a 40% increase in sales over six months. - Employed RESTful API principles to enhance frontend-backend communication, utilizing **Advanced Python** for the server-side logic.

### Data Analytics Dashboard

- Created an interactive dashboard using Python and data visualization libraries, enabling real-time insights for stakeholders. - Integrated various data sources, improving data accessibility and decision-making efficiency for management.

---

## Education

### Bachelor of Science in Computer Science

*University of Technology — Michaelchester, UK*

*Graduated: May 2018*

- Relevant Coursework: Data Structures, Algorithms, Database Management, Machine Learning.

---

## Certifications

- **Google Cloud Professional**

Achieved certification in 2023, demonstrating proficiency in Google Cloud technologies and their application in data analysis and application development.

---

## Additional Information

- **Languages:** Fluent in English; conversational in Spanish.
  - **Interests:** Open source contributions, participating in hackathons, and exploring new programming languages.
