Summary

Innovative and dedicated software engineer with over 5 years of experience in developing robust web applications. Proficient in enhancing performance and user experience through advanced programming techniques. Passionate about building scalable microservices and leveraging cloud technologies. Proven track record of delivering high-quality projects on time and exceeding expectations.

Experience

Senior Software Engineer

Tech Innovations Inc. – Roblesville, CA

March 2021 – Present

- Led the development of a high-traffic **E-commerce Platform** utilizing **React** and **FastAPI**, resulting in a 30% increase in user engagement and a 25% boost in sales within the first quarter post-launch.
- Architected and implemented a **Microservices Architecture** that improved application scalability and reduced deployment time by 40%.
- Mentored junior developers, fostering a collaborative environment that enhanced team productivity by 15%.

Software Engineer

Creative Solutions LLC – Roblesville, CA

June 2018 – February 2021

- Developed and maintained multiple high-performance applications using **JavaScript** and **Rust**, achieving a system uptime of 99.9% across all deployed applications.
 - Collaborated with cross-functional teams to design RESTful APIs that improved data retrieval speed by 50%.
 - Spearheaded the transition to containerized deployments using Docker, resulting in a streamlined CI/CD pipeline and a 20% reduction in deployment errors.
-

Skills

- **Rust:** Advanced
 - **FastAPI:** Intermediate
 - **JavaScript:** Advanced
 - **Microservices:** Advanced
 - **React:** Advanced
-

Projects

E-commerce Platform

- Developed a comprehensive online shopping platform that supports thousands of concurrent users.
- Utilized **React** for the frontend, enhancing user experience with responsive design and real-time updates.
- Integrated payment gateways and user authentication, ensuring secure transactions and data privacy.

Microservices Architecture

- Designed and implemented a microservices architecture for a legacy application, breaking it down into smaller, manageable services.
 - Enabled independent scaling of services, which improved application responsiveness and resource utilization.
-

Certifications

- Docker Certified Associate
 - AWS Certified Solutions Architect
-

Education

Bachelor of Science in Computer Science

Roblesville University – Roblesville, CA

Graduated: May 2018

- Completed coursework in Software Development, Database Management, and Cloud Computing.
 - Participated in the university's coding bootcamp, where I honed my skills in full-stack development.
-

Additional Information

- Passionate about open-source contributions and regularly contribute to projects on GitHub.
 - Active member of the local tech community, participating in meetups and hackathons.
-
