Email: johnny89@example.com

Location: Cameronview

Summary

Enthusiastic and detail-oriented software developer with over 5 years of experience in building scalable web applications and microservices. Proficient in a diverse array of programming languages and frameworks, particularly in Java and Django, with a strong focus on delivering high-quality code and innovative solutions. Passionate about leveraging technology to solve complex problems and enhance user experience.

Experience

Senior Software Developer

Tech Innovations Inc. - Cameronview, CA

June 2021 - Present

- Led the development of a **Payment Processing System**, achieving a **30% reduction** in transaction time through optimized backend processing using **Java** and **MySQL**.
- Designed and implemented a **Real-time Chat System** using **Flask** and **Redis**, increasing user engagement by **20%**.
- Collaborated with cross-functional teams to create a **Microservices Architecture** that improved system scalability and maintainability.

Software Developer

Web Solutions Co. - Cameronview, CA

January 2018 - May 2021

- Developed a robust **E-commerce Platform** that supported **5,000+** concurrent users, utilizing **Django** and **React** for frontend and backend integration.
 - Enhanced application performance by optimizing database queries in **MySQL**, resulting in a **25% improvement** in load times.
 - Implemented automated deployment using **Docker** and **Kubernetes**, reducing deployment time from hours to minutes.
-

Skills

- **Java:** Advanced
 - **Django:** Advanced
 - **MySQL:** Advanced
 - **Microservices:** Advanced
 - **Docker:** Advanced
 - **FastAPI:** Intermediate
 - **Flask:** Intermediate
 - **React:** Intermediate
 - **Git:** Intermediate
 - **Redis:** Intermediate
 - **Kubernetes:** Intermediate
-

Projects

- **Real-time Chat System**

Developed a scalable chat application allowing users to communicate in real time, utilizing **Flask**, **Redis**, and **WebSocket** technology.

- **Payment Processing System**

Created a secure payment gateway integrated into an e-commerce platform, handling **over \$1 million** in transactions monthly.

- **E-commerce Platform**

Built a full-stack e-commerce solution with features like product search, user authentication, and payment processing, serving **10,000+** users monthly.

- **Web Application**

Designed and developed a responsive web application for local businesses to manage their online presence, resulting in increased customer engagement.

- **Microservices Architecture**

Architected a microservices-based solution to decompose a monolithic application, improving deployment flexibility and system resilience.

Education

Bachelor of Science in Computer Science

Cameronview University, Cameronview, CA

Graduated: May 2017

Certifications

- Certified Kubernetes Administrator (CKA)
 - AWS Certified Solutions Architect – Associate
 - Java SE 11 Developer Certification
-
