---

# Experience

---

## Software Engineer

**E-commerce Platform** (Startup, 10-50 employees)

*January 2021 - Present*

- Developed and maintained a content management system for an e-commerce platform, utilizing **Next.js** and **Redis** to enhance performance and user experience.
- Implemented microservices architecture, improving system scalability and reliability.

## Backend Developer

**Real-time Chat System** (Startup, 10-50 employees)

*June 2019 - December 2020*

- Designed and deployed an API Gateway to facilitate real-time communication within a chat application using **Kubernetes** for orchestration.
- Collaborated in a cross-functional team to enhance system features and resolve conflicts, ensuring smooth project delivery.

## **Junior Developer**

**API Gateway** (Enterprise, 201-500 employees)

*June 2018 - May 2019*

- Assisted in the development of an API Gateway, focusing on security and performance optimization.
  - Participated in Scrum meetings and contributed to mentoring new team members, fostering a collaborative environment.
-
